March 2025

Dear John Healey

**Ref: Ministry of Defence Contract, Brazilian Expedition Party and the Royal Engineers Regiment.**

I am entrusting delivery of this letter to you and attached documentation to my hometown MP for Huntingdon Ben Obese-Jecty, to whom my previous correspondence relating to *Establishing the Los Angeles Embassy to Significant Religious Object* is archived at:-

<https://www.apollobath.org/Letters%20of%20Introduction/British%20Government>

On requesting Ben's assistance in mounting a Brazilian expedition party to include soldiers of the Gurkha and Royal Engineer regiments my hometown's MP response was:-

*Thank you for your email regarding the Expedition Party to Ilha Santa Catarina, Brazil.*

*I greatly appreciate your kind invitation, but I must respectfully decline. Unfortunately, this falls outside the scope of my role as a Member of Parliament, which is governed by strict procedures.*

My reaction to Ben's reply has been collation of presentation *Jupiter Moon and Dismantling the Deep State*, featuring interviews with Dominic Cummings and Lizz Truss in chapter 3. *The End of the City of London*.

As an entrepreneur, my initial endeavour commenced in 1999 with ambition to communicate international engineering projects via the internet and while employed within the Brazilian aerospace industry designed and development Product Data Management service CAD-Collaborate TM. This tale is told in 2023 letter to British Consulate General of Sao Paulo:-

Meanwhile link:- <https://www.mintpressnews.com/pro-israel-oracle-larry-ellison-control-uk-sensitive-national-security-data/283555/> Tells the story of how a multibillionaire who has dedicated his life to advancing the cause of the Israeli national security state is now in control of Great Britain's most sensitive public and military data.

Presentation *Launching Banco Atlantida* features Jaguar Land Rover and I wish to invite investment from the MOD in developing an independent database system in conjunction with the Ministry of Defence of Brazil to manage retrieval of Significant Religious Object(s).

This August marks the 20<sup>th</sup> anniversary of commencing a studios project in the town of Lagoa de Conceição in support of an archaeological expedition of Ilha Santa Catarina. Excavation sites for presentation to my grandfather's regiment of the Royal Engineers presented in dossier *Establishing Embassy - Grail Technologies* <https://apollobath.org/page5.html>

Wishing to mark this anniversary by returning to Brazil with two Gurkhas, one Royal Engineer and a British Policeman preferably fellow Leeds University Mechanical Engineering graduate Neil Kirk, who features in letter to Cambridgeshire Police.

I believe my presentation of primary objective in *Establishing the Los Angeles Embassy to Significant Religious Object* has reached such a comprehensive level that I now warrant an appointment with a serving Member of Parliament. Material I am keeping out of the public internet domain that I consider *sensitive* is currently available in the not very secure folder <https://apollobath.org/restricted/>

Please also find attached your gameshow invitation providing *Camaiatlot* identity *Queen of Diamonds – Cosmic Warrior*.

Kind regards

Graeme Parker
