24th March 2022

Dear Councillor Karl Webb

Ref: Assisting presentation to RAF Molesworth – NATO Intel Fusion Centre

As a child during the 1980's I first became familiar with the role of a Town Mayor while sharing a chauffeured limousine ride to a fete well worth opening with my maternal grandfather Lionel Dollery. Who as a retired Lieutenant Colonel of the Royal Engineers Regiment and Conservative Party Councillor, took on the responsibility as Mayor of Gillingham, Kent. It was this grandfather's death in 1998 that took me to fourteen years of a Brazilian life that ended with deportation in 2012.

From my enclosed CV you will see that I was educated locally at Hinchingsbrooke, my family arrived in Huntingdonshire during 1973 as my RAF Flight Lieutenant father received training as a Photographic Interpreter at Wyton and subsequent service at JARIC. I have an elder brother named Ian who followed in the footsteps of my father's RAF career and is currently employed by the NATO Intel Fusion Centre at RAF Molesworth.

I am currently receiving Universal Credit and have been provided with a sick note as I seek a mental health review. My mother, father and brother all feature in document provided on CD '*Mental Health Review Request- Main Text*'.

The reason for introducing this review of my mental health to the attention of the Mayor of Huntingdon is as follows:-

- Advancement in understanding a parasitic limb paralysis disease, believed to be an environmental concern.
- Presentation of archaeological discoveries and their proposed dramatization to my elder brother's employer RAF Molesworth and NATO for referral to NASA.
- Recruitment of an expedition party including members of British and Brazilian Armed Forces – forming a nucleus to a proposed Private Army.

The internet informs me that Councillor Karl Webb has a Master of Arts Degree in Security & Intelligence and was employed for many years as a Civil Servant to the Ministry of Defence.

Last year on the sunny morning of 4th August I rode my bicycle from Huntingdon to the entrance gate of RAF Molesworth and requested a Public Relations Officer to the NATO Intel Fusion Centre, primary reason being that as a music video producer one of my productions reveals their location.

The second reason was that the 4th August is the day after my elder brother's birthday, Ian Robert Lionel Parker (dob 03.08.1966). He being employed by the NATO Intel Fusion Centre and I was wishing to congratulate him. Three US Army soldiers then kept me company until two British Police Officers assigned to RAF security arrived to question me.

The video I wish to present to a Public Relations Officer to NATO is titled '*The Whore of Babylon or Bob and Rocky*' this video, featuring the works of English composer Gustav Holst, has been divided into three parts, the first two produced during the summer of 2019 while resident at 51 Ashton Gardens, Huntingdon.

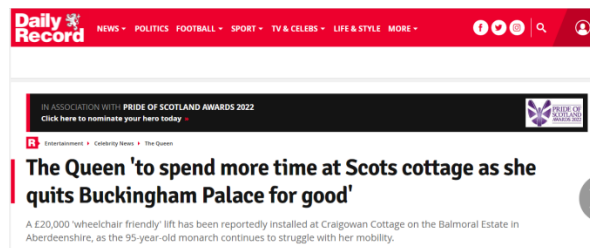

Part two of *'The Whore of Babylon or Bob and Rocky'* features this scene revealing the location of the NATO Intel Fusion Centre.

Last year I completed a body of texts under the title *'Establishing Embassy to the Ark of the Covenant, Holy Grail and Caravan of Treasures'* and these can be viewed at <https://apollobath.org/page5.html>.

This month I released video *'Emmanuel's Last Hot Supper'* which is presented as a prologue to *'The Whore of Babylon or Bob and Rocky'* - this video features the huge explosion that occurred in Beirut on the 4th August 2020 and the CERN Anti-Matter Factory situated in President Macron's France.

Last weekend news was that Queen Elizabeth II is moving to Scotland as reported in the Daily Record.

At link <https://apollobath.org/restricted/> is document *'Annunaki Conquest B'*, which together with the restricted videos presented, may provide a higher reason to the Queens change of abode. All material is on enclosed CD and printed copies have been provided to Huntingdon Jobcentre Work Coach Lucy Mapplethorpe.

Becoming proficient in dramatizing archaeological finds, a video has been produced introducing discoveries recently made in Brampton combined with the movements of my father, it is titled *'Cleopatra and the Orion Gate Affair'* <https://youtu.be/OqTnUXsUso0> and images of St. Mary's Church, Huntingdon appear in video *'The Cyborging Ethereal Bath'* https://youtu.be/a4P_QFUcvf0.

In the pipeline I have storyboarding for a *'Back to the Future'* episode featuring Chewbacca on a skateboard performing in Huntingdon Market Square – a planned sequel to this episode of *'As Surfistas da Roda'* <https://youtu.be/c8LRsZ6vnDY> introducing Chewbacca as the next James Bond!

I hope to make the acquaintance of Councillor Karl Webb believing that he can lessen my burden of knowledge and the targeting of distribution. Requesting he review my mental health report and understand that I was a victim of a 'policing cover up' as I raised issue of Brazilian national security laws pertaining to revealing the location of military installations of the 14th Century. It would be kind if a desired reunion with my elder brother Ian Parker could be also be arranged.

Kind regards

Graeme Parker
