Dear Lucy Milazzo

22nd October 2020

Ref : Opening liaisons between the Federal University of Santa Catarina, Brazil and the Cairo Museum, Egypt.

This is my first correspondence to the University of Cambridge and this letter completes a set of four introductory correspondences written since both Sidaq Khan and Theresa May made public statements on the 21st September 2020 – the eve of the autumn equinox. A resident of Cambridgeshire I am currently living in a motorhome parked in Huntingdon.

Other addressee's and recipients of enclosed 'Media Pack CD' being:-

- Mr Ilya Eroveev - First Secretary Information, Press and Culture, The Embassy of the Russian Federation, London
- Nicola Sturgeon – Scottish National Party, Edinburgh
- United Nations Association – Whitehall, London

Letters of introduction (available on enclosed CD) have also been prepared for: -

- Her Majesty Queen Elizabeth II
- His Royal Highness the Prince of Wales
- House of Bourbon Anjou
- Chief Royal Engineer Lieutenant General Tyrone R Urch
- Prince Richard Duke of Gloucester
- Station Commander – NATO Intel Fusion Centre, RAF Molesworth
- Mr David Cameron – former PM
- Mr Jonathon Djangoly – MP for Huntingdon
- Sir Richard Branson
- John and Norma Major
- Captain Carlos Lima – Public Relations, Brazilian Army
- The President and First Lady of the United States of America
- Jerry Bruckheimer – Hollywood Film Producer
- Rothschild & Co. – Asset Management

From my enclosed Curriculum Vitae you will learn that during 2005 I commenced an Art and Music Studios project to support an archaeological expedition of Ilha Santa Catarina, Brazil. Expedition success provided statement 'Oculus Dei – Declaration of Archaeological Discoveries' and a portfolio of media projects (see 'Apollo Bath Media Productions – Introductory Portfolio' on CD).

Ilha Santa Catarina in southern Brazil is home to the city Florianopolis and 'UFSC – Universidade Federal de Santa Catarina <https://en.ufsc.br/>'

Following belief that society's progress is driven by science and it's engineering, I wish to invite Stephen Toope and the University of Cambridge to consider commencing liaisons with the Federal University of Santa Catarina and manage formation of a multi-disciplined expedition party.

Prior to deportation from Brazil in 2012 I was visited in the state penitentiary by Captain Carlos Lima – Public Relations Officer to the Brazilian Army, accompanied by a Catholic Priest, he returned artwork to me that is included in 'Apollo Bath Media Productions – Introductory Portfolio'.

Unfortunately my father (deceased) and elder brother (employed by NATO) have been politically opposed to discoveries made in Brazil – my presentation to Brazilian Government was thwarted by a Chief of Federal Police initiating my abduction and corrupting a prison psychiatrist. British Government first informed of discoveries via the Foreign Office, March 2009.

On returning to England March 2012, I presented myself to National Health Service Mental Health departments and received evaluation at the Cavell Centre in Peterborough. Providing you with latest statements made to Richard Boucher and Cambridgeshire Mental Health – an opportunity exists for a post-graduate student of parapsychology.

Continuing to act in best interests of a 'Significant Religious Object' my thoughts now are in selection of a suitable breed of guard dog for service to a 'Temple Guard' and wish to offer assistance in canine selection to Cambridge University Officer Training Corps.

With faith and hope I request your office at the University of Cambridge to help relieve me of the burden of knowledge associated with discovering the storage location for the Ark of the Covenant and Caravan of Treasures.

Kind regards

Graeme Parker
