Brazilian Aeronautical Commission in Europe
16 Great James Street
London WC1N 3DP

4th July 2022

Secretary to the head of BACE

I wish to introduce the Brazil Aeronautical Commission in Europe to a four part dossier under the collective heading **'Establishing Embassy to Significant Religious Object(s) Ark of the Covenant, Holy Grail and Caravan of Treasures'**. The four parts individually titled: **'Lifting the Veil'**; **'Anunnaki Conquest of the Free World'**; **'Grail Technologies'**; **'Camaialot'** and are provided on enclosed CD or available for download at website www.apollobath.org – link – **'Crown Office and Embassy'**. Dossier part **'Anunnaki Conquest of the Free World'** has been divided into parts 'A' & 'B', due to the content **'Part B'** is unavailable for download but provided for your review on enclosed CD in folder **'Restricted'**.

To support this introduction I am sharing with you previous introductory letters to HRH Prince Charles; former Prime Ministers John Major and David Cameron and my current local MP Jonathon Djangoly together with artistic material and introductory letters intended for the Russian Cultural Centre Pushkin House; the Japanese Embassy of London; the Jamaican Embassy of London; the Iranian Embassy of London; the Chinese Embassy of Edinburgh and the Scottish National Party in Edinburgh.

From my enclosed CV you will see that my career as a Contract Design Engineer diversified following employment with Dynamic Solutions Ltda and Hamilton Sundstrand at Embraer's manufacturing facility in Sao Jose dos Campos. My employment contract with Hamilton Sundstrand was terminated following the September 11th felling of the World Trade Centre in 2001 and I took up the sport of surfing. Relocating to Ilha Santa Catarina in October 2002, my mother then died and my original business interest (Centauri Design Ltd) of communicating engineering projects via the internet was put on hold after burglary at my rented accommodation in Lagoa da Conceição relieved me of computers but thankfully not surfboards and guitar, February 2003.

Making Florianopolis my surfing home and embarking on surf trips to UK, North East Brazil, South Africa and Chile (2x) in 2005 I began to experience onset of the same limb paralysis disease that had taken my mother's life. Believing that I had about two years left to live and having knowledge presented in letter to John Major, a HSBC gold credit card was used to initiate a studios project supporting an archaeological expedition of the central region of Ilha Santa Catarina, Brazil. Expedition success has resulted in a large quantity of artistic material which can be viewed in a condensed presentation titled **'Phoenix Stargate and the Artistry of Divine Rule'** also provided on enclosed CD and available for download from afore mentioned website link.

I found curing from the paralysis disease with indigenous remedy **'Flor da Amazonia'** that kills parasitic infections, see dossier **'Establishing Embassy – Camaialot'** and Chapter 14 **'The Wormwood'**.

February 2009 - the British Foreign Office made a request to Florianopolis Federal Police that I provide a statement of my activities and Chef Delegado Christiano Bath took a lengthy proclamation that I ended with declaring that my actions are in the best interests of delivering the Ark of the Covenant to Brazil and the generations to follow.

Unfortunately, 19 months later on the 22nd September 2010 Chef Delegado Christiano declined my attempt to update that statement. Provided on CD is file *'Brazilian Incident Reports'* informing as to Federal Police's actions and my return to UK March 2012.

My father and godfather were both RAF pilots and my elder brother is employed in munition targeting at RAF Molesworth by the NATO Intel Fusion Centre and together with this letter is gift to BACE of a coffee mug originating from there.

Chapter 12 of document *'Establishing Embassy – Camaialot'* provides a brief study of modern seaplanes and a proposed future venture for Embraer and is highlighted in presentation to the Japanese Embassy of London.

Proposing that the *'Sword in the Stone'* be used as a champions trophy for sporting competition *'As Surfistas da Roda'*, I am aware that the United States Air Force have previously looked to *'Surf Scene'* in recruiting potential pilots. Chapter 10 of document *'Establishing Embassy – Grail Technologies'* draws attention to Lake Itaipu, perhaps the Brazilian Air Force could provide a prize of pilot training to talented surfers.

Included on CD is video *'Ovni na Praia Mole'* a News report from 2018 as to the sighting of a UFO over Praia Mole and local to archaeological discoveries.

Chapter 10 of document *'Establishing Embassy – Camaialot'* and Chapter 5 of *'Establishing Embassy – Lifting the Veil'* introduces the futuristic role in life of Elon Musk and request that the BACE consider inviting Elon Musk to Florianopolis to expand his business interests.

On researching Embraer's industrial links with Shorts Aircraft, Belfast I was moved to learn that American composer James Horner, an avid pilot who frequently used motifs associated with Celtic music, died exactly 7 years ago to the date of this letters composition through crashing his Short Tucano Turbo Prop in California. James Horner provided music for Braveheart, Avatar and Titanic. I recall a scene in Titanic as the ship is sinking of an Irish mother telling her children the story of Tir Na-nog the land of the forever young.

Archaeological discoveries on Ilha Santa Catarina I believe are connected to a 1398 expedition lead by Sir William Henry Sinclair of the Orkney Islands and a Siberian Shaman – Batraz – a century after William Wallace's attempt to overthrow English Crown's rule of Scotland and a century before Christopher Columbus' claim to the Americas.

At homepage www.apollobath.org link 'Oculus Dei' can be found James Cameron's invitation to a 'Governing Counsel and Charity'.

Document *'Brazilian Incident Reports'* introduces my attempts to make presentation to the Brazilian Army at the 14th Motorized Infantry Brigade, Rua Bocaiuva, Florianopolis and I was befriended by Public Relations Officer Captain Carlos Lima, who kindly visited me in the State Penitentiary of Florianopolis and returned artwork to me prior to deportation March 2012. Captain Lima is now pursuing a career in politics and last year I wrote to him regarding opening liaison between Florianopolis State University and Cambridge University – letter enclosed on CD. Captain Lima is one of my Facebook friends <https://www.facebook.com/carlos.lima.735507>.

I hope that BACE take a positive interest in discoveries made and their presentation, I live about one hour from London, if the BACE wish to meet me in person please let me know.

Kind regards

Graeme Parker
