Captain Carlos Lima  
Public Relations Officer  
Command of the 14<sup>th</sup> Motorized Infantry Brigade  
Rua Bocaiuva, 1858  
Centro  
Florianopolis – SC 88015-530  
Brazil

15 July 2019

Dear Carlos

Seven years have now passed since our last meeting in Florianopolis, hoping you and family are well, I am very grateful to you for returning artwork to me at the prison prior to flying to London – March 2012.

I am writing to you from my hometown in England named Huntingdon. Missing very much the beaches of Praia Mole and Joaquina, I hope to return to professional Surfing competition very soon in the waves that gave me a new purpose to life.

In February of this year I took a second Surf trip to Venezuela's Ilha Margarita – a very beautiful, paradise location. Principal reason being a show of devotion to a lady who I had hoped become my wife, making good friends at Praia Parguito when not surfing I went fishing and dug a vegetable garden, planting seeds imported from England.

I had planned to cross the border into Brazil and return to Ilha Santa Catarina – carrying with me a small hand held metal detector. Unfortunately two weeks into this stay in Venezuela I was robbed by two young men who entered my first floor apartment via the balcony window. Declaring themselves to be members of Venezuelan Military, they had been sent on an intelligence gathering mission to learn as to why this Gringo was in Venezuela. I informed them that I was a self-financed producer of short comedy films and in Venezuela because of love for a woman.

Tied up in guitar strings, among items confiscated were a movie camera, a comedy lizard costume, a tablet computer and the metal detector.

Contained in memory of the stolen computer is the document 'Sword in the Stone' – enclosed on CD provided with this letter.

Consequence of this trip to Venezuela has been the loss of accommodation and social security payments provided for my subsistence by the British Government for the last seven years.

Thirteen years have passed since unearthing 'The Sword in the Stone' and digging a 'Bottomless Pit' - a burden of knowledge. To relieve this burden I have become skilled in production of music videos.

Contained on enclosed CD is my latest production 'The Whore of Babylon or Bob', two weeks ago I delivered this video to the politician representing UK parliament for Huntingdon. His name is Jonathon Djangoly and letters of introduction to he, former Prime Minister David Cameron, Queen Elizabeth II and Virgin Empire builder Richard Branson are also etched onto this CD.

British Politicians refer to each other as 'Righteous and Honourable', 'The Whore of Babylon or Bob' ends with a scene from a Hollywood movie starring Wil Smith – and his influence in life from the works of Bob Marley.

Bob Marley is very much considered to have been a Righteous and Honourable man, my years spent in Brazil I was glad to have been cared for by a generation of Brazilians who have grown up Righteous and Honourable and whose assistance kept me alive and resulted in archaeological discoveries.

Having received the material I am sharing with you, I am a little concerned that Members of Parliament of England and their Policing Forces may not act in a manner that would gain respect of Bob Marley and his Rastafarian congregation. They may seek to take the same decision made by Brazilian Federal Police Officer Christiano Bath and refuse to acknowledge discovery of the 'Ark of the Covenant and it's Caravan of Treasure' and refuse to accept any consequential change to Political Manifesto.

Within the UK, the BBC has an incredible control over the British Mind-Set, UK households pay an annual license fee to receive their broadcasts and hence are prone never to question the truth and validity of programming.

I have observed that Prime Minister Theresa May's Jewish family ties have not been made known to the public. Video 'Whore of Babylon or Bob' documents belief that her leadership has not been in the best long term interests of Britain but have been to assist expansion of the State of Israel through stirring up Islamaphobia.

If any member of Brazilian Military is interested in retrieval of the Holy Grael – believed storage being the Yorkshire Pennine hills in the north of England – a guide for it's location being stored deep inside the cave containing 'The Sword in the Stone'. I have available for Brazilian usage a Mobile Studio facility which can be viewed via the internet - <http://apollobath.co.uk/page232.html>

Video 'Whore of Babylon or Bob' exposes the significance of the number 69 to Freemasons. My deceased father had a cousin named Dr Jimmy Findlaiy who resides in Johannesburg, South Africa – he spent his working life as an 'Entymologist' (an expert on insects). I believe he and his son Iain Findlaiy (formally an officer in the British Army) can be contacted via the Masonic Lodge of Johannesburg.

Dr Findlaiy should be professionally interested in the cave containing 'The Sword in the Stone', directly above the Ark of the Covenant – during excavation I was witness to conflict between spiders and insects. A scary looking insect resides in the cave with a very nasty sting to it's tail – it could be an example of the power of the Ark to evolve DNA of lifeform conceived within proximity.

Hope to hear from you soon.

Kind regards

Graeme Parker

I can be contacted by email to my stage name apellido :- [SashaSanchez69@outlook.com](mailto:SashaSanchez69@outlook.com)

P.S.

In January 2019 the BBC broadcasted this report about Venezuelan Pirates  
<https://www.bbc.com/news/stories-47003108>

I showed this report to a representative of Venezuelan Fisherman, he was angered to learn of this 'fake news'. Although gasoline for autos is very cheap in Venezuela, the price of GasOil for fishing boats is very expensive and fishing trips are only made when catching fish is a near certainty. The Venezuelan people are very resourceful and fisherman are honest people who don't resort to violent Piracy on their neighbours.
