To the Editors of The Scotsman; The Hunts Post and staff of Huntingdon Library

As a four year old I was first introduced to Huntingdon Library by my mother. As she spent hours searching the shelves for heavily weighted romantic novels I was drawn to repeatedly sit patiently and stare at the inside back cover of a book providing a photograph of Ian Fleming's Chitty Chitty Bang Bang during her racing days. Thirty three years later during 2007 while being housed by a wealthy German descendant family of Ilha Santa Catarina I designed an Excalibur powered Transformer for Britney Spears, provisionally casting the North American with Maltese ancestry as Lady of the Lake in rock opera series *Ice Maidens of Atlantis* - CD Rom/ USB pen drive folder <ApollobathTV/Ice Maidens of Atlantis>.

The Ice Maidens of Atlantis – "Bed of Gems" used to display Excalibur and raise feats of divination.

Starring Britney Spears as the Lady of the Lake – governing use of Excalibur, a Green Light Sabre.

On my 2012 deportation from Brazil (see *Advocacy Preparation* folder <Letters of Introduction/British Government>) and returning to Huntingdon Library, their computing facility enabled a personality study of the **13 Moon Mayan Dreamspell Calendar of Peace** <http://www.apollobath.org/EnchantedWaves/page21.html>.

While the book shelves provided *The Power of Playing Cards* by Gerri Sullivan and Saffi Crawford, whose knowledge of an ancient Rosicrucian astrology system enabled devising **Camaialot** see dossier *Establishing Embassy – Camaialot A* - CD Rom/ USB pen drive folder <Establishing Los Angeles Embassy>.

Inviting review of document *Banco Atlantida Gold and Bibliotheca* - CD Rom/ USB pen drive folder <BANCO ATLANTIDA> of which page five presents the Candice Apartments where Britney's Transformer was conceived and a horde of Gold Bullion sits un-disturbed for six centuries. Whilst resident in the family DesJardins campsite and prior to commencing archaeological expedition, a grandson of a gold rich scuttled U-Boat captain proudly informed me how one U-Boat had sunk fifteen British ships off the coast of Uruguay and I invite your reviews of June 2024 letter intended for Home Secretary James Cleverly.

DesJardins a French variant of my own surname, they are good modern day landlords and property developers, the matriarch Veira kindly housed and supported me as I convalesced from a parasitic paralysis disease, onset of which had resulted in commencing a studios project supporting archaeological expedition beside a lagoon of consciousness in their Campsite Panoramica. Veira holding a romantic interest in my widowed father after he had briefly visited Brazil in 2007 insisting that I see the same doctors that had treated my mother five years earlier, see letter *Cambridgeshire Police 1* folder <Letters of Introduction/British Government>.

I wish to thank the Hunts Post for stimulating letter *John Woods St Neots* folder <Letters of Introduction/British Government/Wormwood> and invite The Scotsman to forward this material onto the Doddie Weir foundation in Edinburgh. The Hunts Post also provided material referring to waste plastic re-cycling, assisting June 2024 introduction to the **Church of England**.

My Curriculum Vitae folder <Curriculum Graeme Parker> informs that I was once an Engineering student of the Napier University Edinburgh. My mother was born in Malta during the turbulent year of 1942 from where she and her parents were evacuated to Scotland. As a baby she was nursed in Aberdeen while my grandfather worked as a Royal Engineer in an office above that of The Scotsman's on Princes Street and I invite your reviews of requests to the Mayor of Huntingdon folder <Letters of Introduction/British Government>. As I seek to return to Brazil with an expedition party consisting of soldiers from the British Army Royal Engineers Regiment and Tony Robinson's Channel Four Time Team who all may wish to be enlightened as to Rome's cunning plan revealed for your perusal today on enclosed CD Rom/ USB pen drive.

Yours truly

Graeme Parker
