**Ref: Establishing Los Angeles Embassy to Significant Religious Object and Paralysis Disease the Wormwood**

Last Thursday, following an incident with a private personal trainer, I was banned entrance to The Gym Group situated at the head of St Peters Road Huntingdon and this resulted in returning this morning to the One Leisure gym facility at the foot of St Peters Road where I had trained for several years following deportation from Brazil in 2012. On commencing use of the Matrix Air Walker with built in TV the BBC News at about 8.30 a.m. presented an extended bulletin reporting the death from Motor Neuron Disease (MND) of Leeds Rugby League player Rob Burrows) and I learnt of your highness earlier this year presenting him with a CBE at Headingly and today leading tributes to the rugby legend.

The incident at the Gym Group, during a busy lunchtime, was as follows:- Coming to the end of a ninety minute session of maintaining accelerated heart rate I was alternating between training of legs and arms on vacant gym equipment doing rapid short 10 second bursts to improve strength and stamina. Seeing that the Delta/ Pec Fly machine was free apart from a Water Bottle left on the seat which I assumed was someone's forgotten property, on placing the Water Bottle on the floor it's owner approached me saying that he was using the machine. As I rapidly adjusted the equipment so as to train my delta shoulder muscles and lower neck I challenged his statement as he had been busy chatting to someone on another machine a few metres away. The man who transpired to be a personal trainer and friend of the management tried to inhibit my exercising and I said 'What are you doing? Get out of the way'. He being bespectacled then got on his phone to management accusing me of aggressive behaviour, to which I responded 'What do you mean aggressive? I haven't sworn at you or threatened you in any way – what an idiot you need some training in social skills!' My training session complete I went to shower and departed with memory of the days of German holiday makers reserving hotel Sun beds by getting up early and positioning their towels before breakfast. The gym manager, an Ulsterman, then prohibited my entrance and that evening I was forced to travel to the Cathedral City of Peterborough and use the Gym Group's facility there.

Tomorrow I plan to return to Newquay Cornwall a little bit stronger physically for my preferred sport of Surfing, of which I commenced dedicated training through relocating to Ilha Santa Catarina Brazil following the death of my mother Wendy Mary Parker at the end of year 2003. My mother's death affected me very much as it was due to a paralysis that had commenced in her left foot and I invite your highness's review of document titled *Paralysis Disease Wormwood* USB pen drive folder <British Government/Letters of Introduction/Wormwood> introducing Bible passage prophesying a worm that turns you into wood:-

**Holy Bible - Revelations 8:10**

*"The third angel sounded his trumpet and a great star blazing like a torch, fell from the sky on a third of the rivers and on the springs of water - The name of the star is Wormwood.*

*A third of the waters turned bitter, and many people died from the waters that had become Wormwood."*

The last two months I have spent much time in Huntingdon Library updating a four part dossier series presented under collective heading *Establishing Los Angeles Embassy to Significant Religious Object(s)*. The four parts titled:-

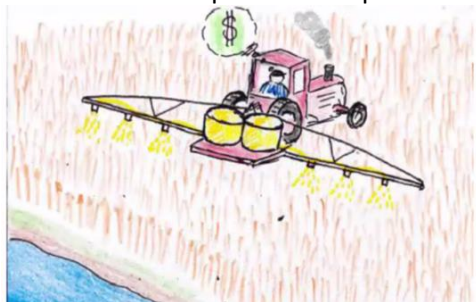

- **Lifting the Veil**
- **Grail Technologies**

The Electric City's culture had convinced farmers that exploiting the soil was the right thing to do...

When a Star fell upon the Waters, a Cosmic Serpent buried itself in the sludge below the rivers and lakes.

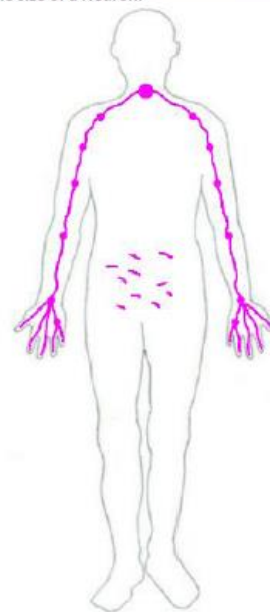

The Serpent seeding a lifeform known as "Wormwood", a worm the size of a Neuron.

Inviting his highnesses review of letter to *John Woods of St Neots* pen drive <Letters of Introduction/British Government/Wormwood> detailing my conquering of a paralysis disease through medicinal tea Lapacho and Threadworm treatment Mebendazole. The consequence of experiencing onset of this microscopic parasite attack was use of a Hong Kong Shanghai Banking Corporation gold credit card in 2005 to initiate a studios project in support of an archaeological expedition that proved successful of Ilha Santa Catarina lat 27 deg South.

The most severe paralysis attack I experienced was in February 2007 as the Neuronal Worms synapsed across the nape of my neck, hence my tendency to train aggressively and why I may be a bit abrupt with people who try to inhibit my pursuit of athleticism.

I know you to be a campaigner for mental health and invite your review of document *UK Mental Health Review Request* pen drive <Letters of Introduction/British Government/Cambridgeshire Mental Health> as I seek to have my state recognised as Post Traumatic Stress Disorder and my father's relationship to me recognised as a Sociopath/ Pathological Liar. James R Parker greatly inhibiting my presentation of defeating a paralysis disease to the UK Health Service, ironically he once had trials with the Scots Rugby Union squad during a bygone era.

**+27 Months February 2007**  
**Synapse growth across nape of Neck. Highly efficient total attack to right arm and hand.**

The Scottish Daily Express reported a few days ago '**Prince William on collision course with Rishi Sunak over national service plan amid mental health fears**' and wish to take this opportunity to introduce the **13 Moon Mayan Dreamspell Calendar of Peace** through which your highness is identified as **Kin 254 White Resonant Wizard** (see dossier Camaialot A).

Questions may arise in Royal Courts as to my ancestry I prefer philosophy provided by Don Juan the Yaqui Indian where Dad was Dad and Mum was Mum, however it is thanks to an Ulsterman that I am writing to you today and believe my paternal grandmother's roots lay with the Court of William of Orange her family palace in county Cavan being destroyed by the IRA in 1916. Living as a refugee in Scotland grandmother Parker maiden name Young of Brigham Young connections married a Scots Sinclair Clansman, providing the DNA that took me to the castle building handiwork (at a southern latitude matching that of the Giza plateau) consequence of an expedition party that reportedly departed the Orkneys in 1398. My maternal grandfather features in letter to the departed Queen Elizabeth II pen drive <Letters of Introduction/Royal Families>.

Yours truly,

Graeme Parker
