Mr Ilya M Eroveev  
First Secretary Information, Press and Culture  
The Embassy of the Russian Federation to the  
United Kingdom of Great Britain and Northern Ireland  
6-7 Kensington Palace Gardens  
London W8 4QP

Tel: 07783 631527

14<sup>th</sup> October 2020

Dear Mr Eroveev

This is my first correspondence to the Russian Federation intended as introduction to my affairs. I suggest you study my Curriculum Vitae before reading this letter further.

Since deportation from Brazil – March 2012 - I have continued to develop artistic projects associated with a successful archaeological expedition initiated on Ilha Santa Catarina, Brazil during 2005.

Following my father's death in January 2015 I have spent much time on the Canary Island of Lanzarote, practicing my preferred sport of surfing assisted by the Red Star Surf Camp – <https://redstarsurf.com/> - owned and managed by Andre Yashin <https://www.facebook.com/search/top?q=andrey%20yashin>

Befriending many Russian and Eastern European Surfers and having opportunity to present my artwork to them, in comparison to audience from the UK, I have verified belief that younger generations born into a capitalist society possess a reduced attention span.

I am comfortable with my portfolio of amateur work as a Performance Artist and Music Video Producer to turn professional and am seeking assistance to establish **'The Los Angeles Embassy to the Ark of the Covenant and Caravan of Treasures'**, presenting opportunity to Disney, Warner Brothers, Sony and Lucasfilm.

Discoveries made on Ilha Santa Catarina I hope will stimulate much interest in the Russian community as many hidden histories are set to be revealed, together with the Holy Grail bank vault technology of Iron Curtain. My own research has lead me to stories of Batraz and the Sarmatian peoples and am providing screenplay storyboarding of Batraz and his horse dying in the tunnel storing the Pyramid Capstone and journeying to a Saxon kingdom of middle earth.

Promoting 'Peace through Culture', in Lanzarote I produced satirical music video 'Anubis and William' <https://youtu.be/Zq92guWD7Ag> this video features a flying carpet. From my CV you will see that an engineering career that eventually took me to Brazil commenced in Halifax, Yorkshire 1994 thanks to the company PFE Ltd. My job was as a Design Engineer of production line equipment for the manufacture of synthetic carpet fibre. My employer and PFE's owner was a Dr Zarabeanee of Iran, I believe his family fled Iran in 1979 due to the Islamic revolution, my design work being shipped to his family connections in the carpet fibre business of Iran.

The flying carpet video is part of a series of videos titled 'The Golden Egg of Fire Mountain' – inspired by the Edith Nesbit novel 'The Phoenix and the Carpet'. Nesbit's story features a talking Phoenix that takes a family of children on flying carpet adventures, my production was intended to tell the story as to where the Phoenix Egg originates – answer 'Inside a Lanzarote Volcano'.

Music Video 'Anubis and William' includes photographs of Barbadian Rockstar Rihanna from a collection that Rihanna posted on her Instagram account where she had superimposed pictures of Queen Elizabeth's head onto her body, Caribbean Queen Rihanna also having modelled Queen Nefertiti headgear.

Rihanna sings the song ‘Shine’s bright like a diamond’ and this tune is being used to answer her question in production ‘Golden Egg of Fire Mountain’, a production intended to assist introduction of proposed gameshow featuring the Ark of the Covenant ‘Time Tunnel – Atari Alliance’.

Through surfing in the Canaries two years ago I came close to marriage with a Venezuelan lady, an adventure that took me to Ilha Margarita in the Caribbean. On departing Caracas December 2018 I took photos of two Tupolev TU160 aircraft as they landed at Simon Bolivar airport, my flight to Madrid was delayed and for 24 hours I shared the Eurobuilding Hotel of Caracas with accompanying well fed Russian aircrew photographed below.

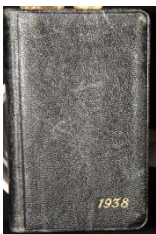

Concern for Russian Air Force presence in Caracas is expressed in my letter to the Royal Household of Bourbon Anjou – see enclosed CD. Times are very hard in Venezuela and I believe the Russian people and their Naval Fleet could lend a hand in feeding many hungry people and restructure their agricultural policies – with support I’m prepared to accept Venezuelan Citizenship as I enjoyed digging a vegetable garden there.

As mentioned in letter to the President of the United States - the Ark of the Covenant and it’s Caravan of Treasures being stored in Brazil empowers leaders of American Nations to question ‘Imposed Authority of Rome’ – I believe the Vatican are very much behind the difficulties being experienced in Venezuela.

My father was a former Royal Tank Regiment Lieutenant and Royal Air Force Pilot/ Reconnaissance Officer, my elder brother followed our father’s career path and is employed at the NATO Intel Fusion Centre – RAF Molesworth. Both were ‘politically opposed’ to archaeological discoveries and their introduction.

Following my father’s death I have come into possession of two items of military memorabilia that I am happy to gift your Embassy – a 1938 Nazi Party Diary, the year of my father’s conception, and a coffee mug originating from the NATO Intel Fusion Centre – letter to NATO included on enclosed CD.

I hope the Russian Embassy of London will take an active interest in an international project and provide assistance and members of an upcoming proposed expedition party of Ilha Santa Catarina, Brazil.

Kind regards.

Graeme Parker
