Dear Donald and Melania Trump

**Ref: Establishment of Los Angeles Embassy to the Ark of the Covenant and Caravan of Treasures**

A conquering nemesis has been allowed to blitz the free world, our peace driven cultures, festivities, sports and normal human physical activities are being deleted.

Politicians and their masonic fraternity ties, through their deceitful media, are selling the freedom of our spirits to hidden agendas of swine herding depopulating track and trace sacrifice.

A nemesis born and bred on the nerd's computer screen, reducing our lives to that of a nerd's couch potatoed, porno masturbatory and socially dysfunctional existence.

Why?

Because the rise of artificial intelligence and the machine it is starting to drive has become more important than the living and breathing lifeforms that we on flat plane earth were given to be guardians of. My mother always told me - 'A computer can only be as clever as the man that made it' but that was back during the golden age of an 8 bit processor in the Sinclair ZX Spectrum. I'm starting to worry that my mother may soon be proved wrong.

You are better informed than I as to subterranean 'Divine Intervention'. Choosing the path of minimal tyranny introducing the 'Awakening of the Ark of the Covenant and Caravan of Treasures' – I have gone on the counter offensive since the lockdown days began. Residing in a campervan, armed with a humble laptop, McDonalds providing a wifi connection and electricity, YouTube have censored some of my mashup video graffiti artworks - maybe due to their Rome friendly Anunnaki allegiance.

Thankfully freedom of expression can still momentarily survive on alternate video hosts inhabiting the world wide cobweb of silica fibre, and invite your viewing of the following episodes of 'Informative Rock Opera' hosted by Vimeo.

YouTube still has respect for Italian renaissance art, the beauty of Britney Spears and the First Lady - inviting your viewing of.

Google tells me 'The United States federal government was the first national government to have no official state-endorsed religion' – however, video 'As Surfistas da Roda – Dagon's Deal' features an important moment in American history where you Mr President are being flanked and overlooked by three Jesuit Priests.

Video production **'The Whore of Babylon or Rocky and Bob'** <https://youtu.be/zZtmJKG0q-E> begins with a speech made by John F Kennedy expressing his repugnance of secret societies and I believe this fuelled a plot for his assassination, maybe JFK was against construction of an impounding wall.

The Ark of the Covenant now slowly awakening in the Americas empowers those in charge of American Nations to question the authority of Rome, I have the headache of telling Jehovah Witnesses that the Bible was written and published by a tribe who never had this 'Significant Religious Object' in their possession.

The expression 'Possession is nine tenths of the law' comes to mind in asking your permission Mr President to continue casting you in gameshow 'Time Tunnel – Atari Alliance' as a time travelling Henry VIII and your First Lady as a Jedi Princess serving Sekhmet. Maybe we could soon have tea together at the Whitehouse with Britney as she considers taking on the role of 'Lady of the Lake'.

Cher made a rock video assisted by the US Navy 'If I could turn back time', maybe in a blink of an eye the nerd's stranglehold on society could be released.

Bob Marley in his Redemption Song, sang : - *'How long shall they kill our prophets  
While we stand aside and look?  
some say it's just a part of it  
We've got to fulfill the book*

Thanks to the works of Tolkien, Glen A Larson, James Cameron and George Lucas – 'The Book' could have a happy ending.

Requesting assistance of the Whitehouse to establish 'The Los Angeles Embassy to the Ark of the Covenant and Caravan of Treasures'

Yours truly

Graeme Parker

Dear Mr Bruckheimer

**Ref: Establishment of Los Angeles Embassy to the Ark of the Covenant and Caravan of Treasures**

With this letter of introduction please find enclosed:- a letter to the President of the Union; a summary portfolio of amateur music videos 'Apollo Bath Media Productions'; database project 'Camaialot'; and your invitation to 'Time Tunnel – Atari Alliance' a proposed gameshow featuring the Ark of the Covenant.

Writing to you came to mind after completing a letter to the United Nations following statements made by two British politicians on the eve of this year's autumn equinox, Wikipedia then informing me that your birthday also falls on the 21<sup>st</sup> of September.

Your most impressive resume of film production including King Arthur, Top Gun and Pirates of the Caribbean makes your office my preferred first point of call, as I seek assistance to re-locate from Huntingdon England to Huntington Beach California.

Expertise is required to co-ordinate:- on location engineering projects, military units, performance artists, sportsmen and film crew in providing a dramatized retrieval of 'Significant Religious Objects' stored for over six centuries on Ilha Santa Catarina, Brazil, - Los Angeles then having opportunity to become home to the Ark of the Covenant's Embassy.

One theme of artwork provided is that of 'spirit entering machine' and 'arrival of reptilian beasts to feed on man'.

The digital age and the machinery it is driving is still in it's infancy, we don't have to turn the clock back very far to arrive in an age of steam and clockwork driving man's mechanical creations.

The awakening of the Ark of the Covenant returning to human affairs brings with it the role of the sorcerer and his apprentice(s) and ask you to consider commissioning design of steam engines and clockwork motors into which 'human friendly spirits' can spring into, so as to defend beauty from the beast of a reptilian Anunnaki driven conquest.

Hoping to make your acquaintance

Graeme Parker
