1. Galactic Alignment and the Truthful Age of Michael

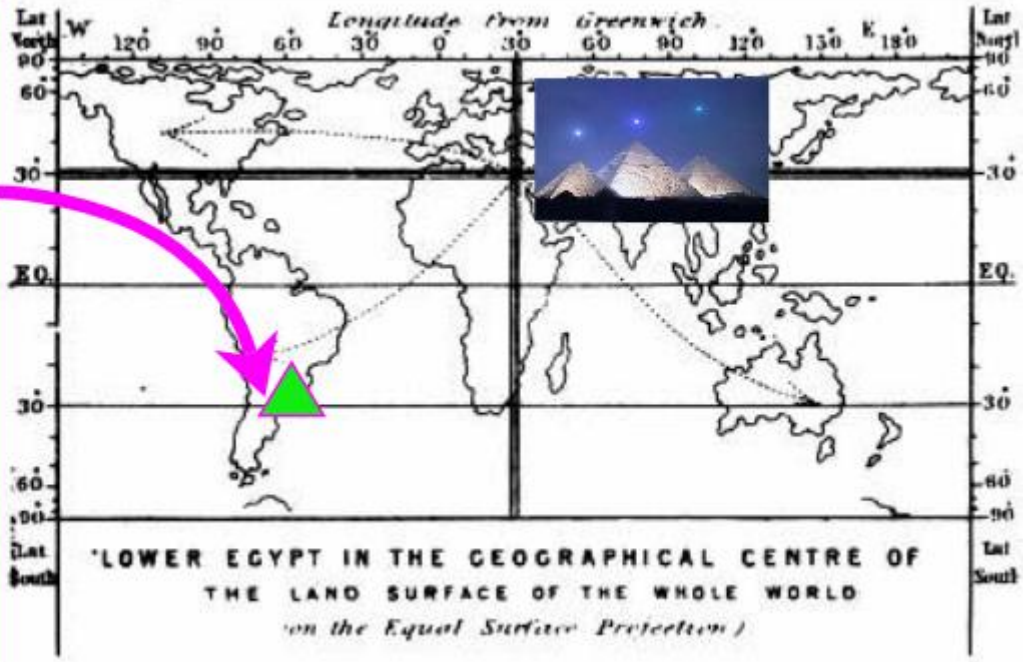

Chapter 4 'Sacred Cartography of the British Isles' of 'Galactic Alignment and the Transformation of Consciousness According to Mayan, Egyptian and Vedic Traditions' by John Major Jenkins (deceased 2017) introduces the sacred centres of islands inhabited by the Celtic peoples.

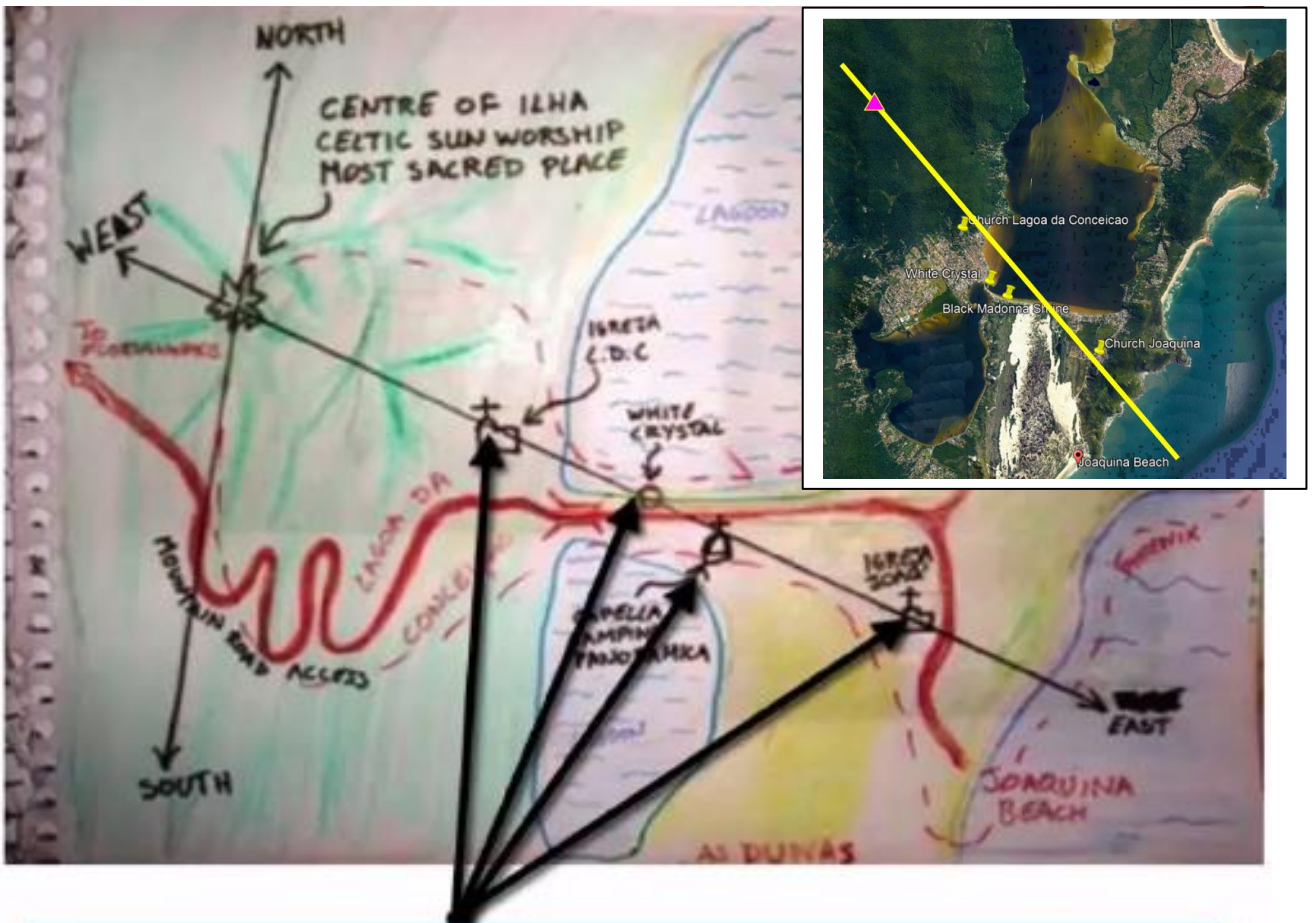

Divine order was established on Earth by centering a given region, which might be delimited by geographical features such as mountains, rivers, or ocean. In the British Isles, an entire island—for example, Ireland—could be identified as a complete and separate entity. It would then be "centered" by dividing it into four parts. This was accomplished by first determining its longest lengthwise axis (usually north-south), and then its widest east-west axis. Where these two axes crossed defined the sacred central precinct from which the high druid or, later, the Celtic king, would rule. Evidence of the existence of the ancient sacred precincts survives today in boundary roadways and the old county names. In Ireland, County Meath—which means "middle" in Old Irish—stands in the middle of the island, uniting four ancient quadrants that were later subdivided into smaller districts. Thus a central fifth element is introduced that unites the surrounding four districts.

Applying this knowledge to Ilha Santa Catarina, Brazil (Tir Na-nog Land of the Forever Young) locates ancient temple site and closed entrance to a Saxon Kingdom of Middle Earth.

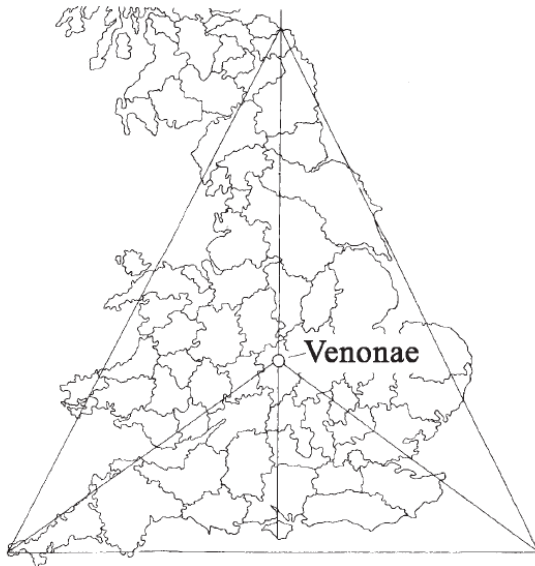

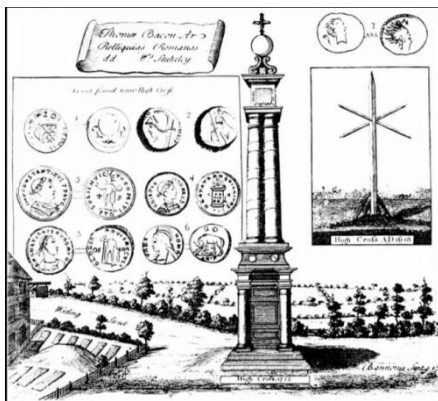

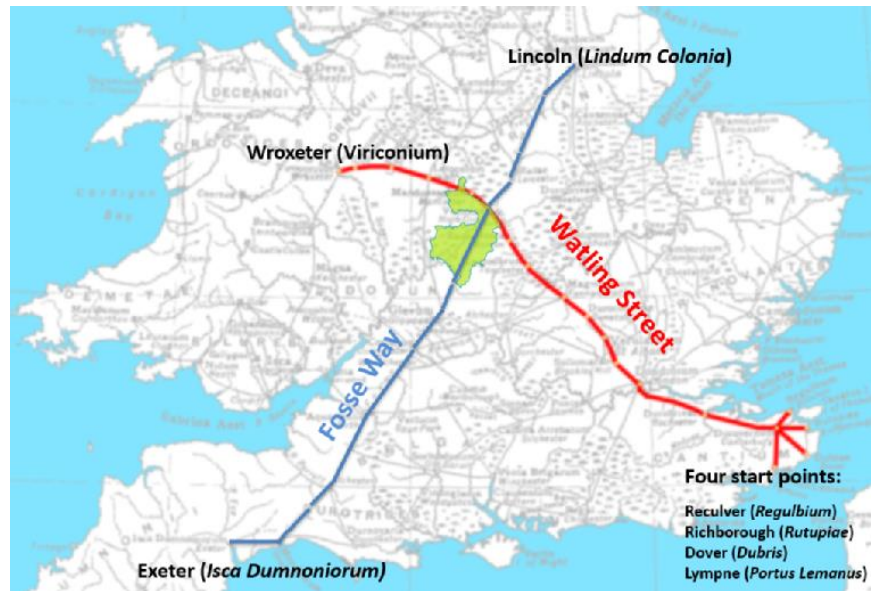

Figure 4.2. Venonae, the sacred center of England

The sacred cosmic centre of Roman England was marked at the cross roads of Watling Street and Fosse Way. This centre of England is today called High Cross where stands a monument. The Romans having paved with stone these pathways used by the Celts for over 3000 years. Folklore associated to Watling Street identifies it with the Milky Way while Fosse Way running east to west is associated with the ecliptic path of the Sun and Moon.

The latitude of this cosmic centre is 53.3 deg North. The latitude of the Ark Temple in Ilha Santa Catarina is close to being half of this at 27.35 deg South.

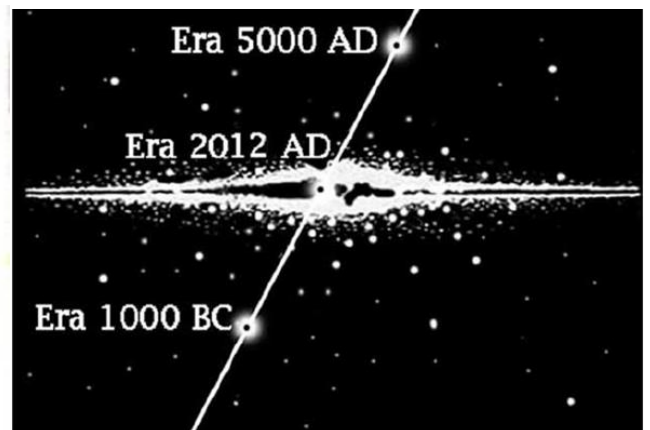

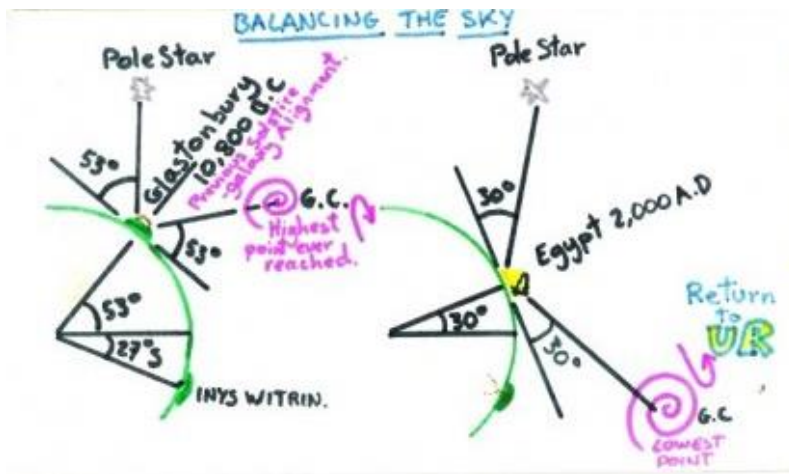

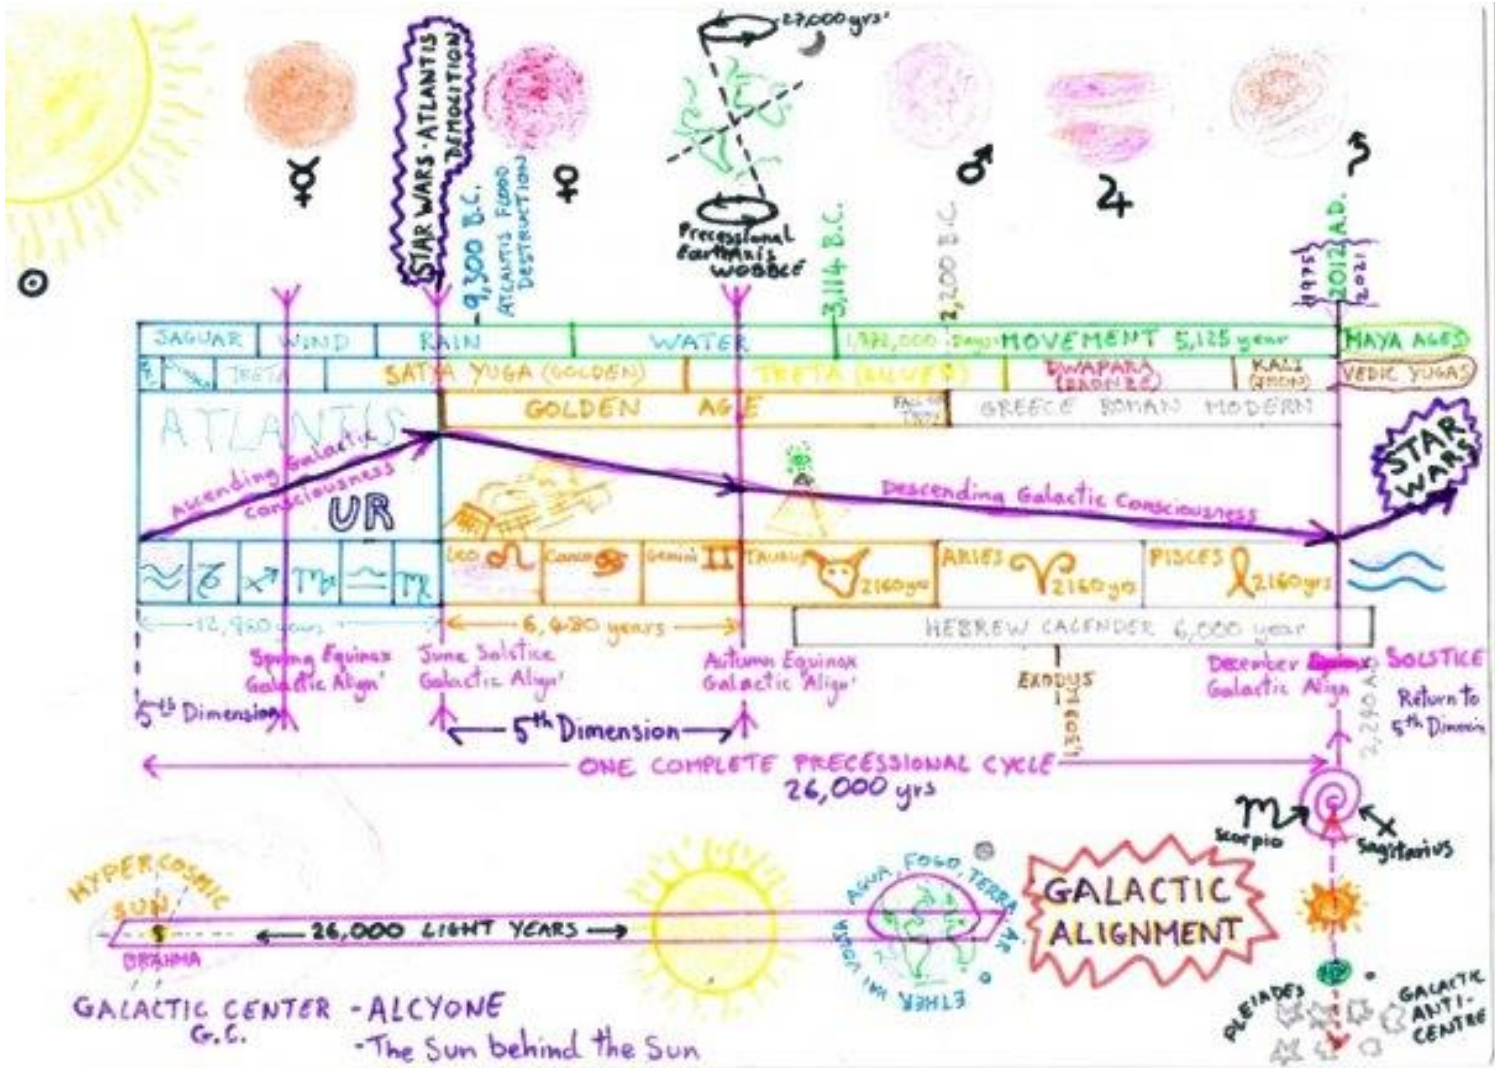

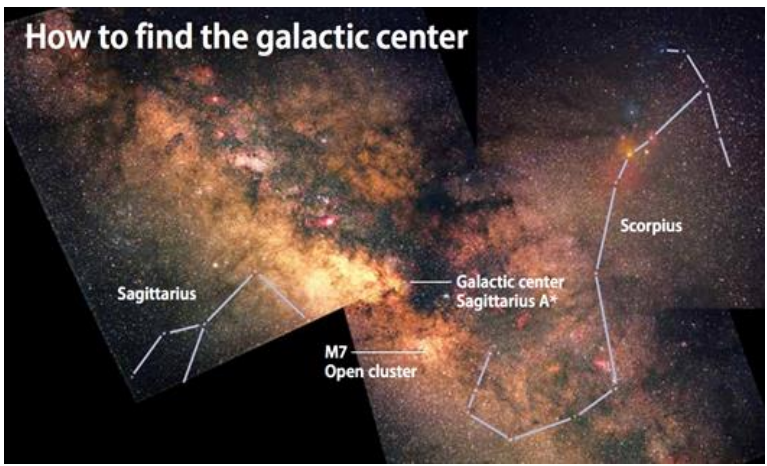

Figure 21.1. The alignment of the solstice meridian with the galactic equator

In 10,800 B.C the sky was balanced at 53°N between the Pole Star and the Galactic Centre the highest point reached, the Galactic Centre falling for the last 13,000 years is no longer visible from Britain but now balances the sky with the Pole Star at 30°N the latitude of the Giza plateau. John Major Jenkins identifying the rare alignment of the December solstice Sun with the Galactic Centre as the reason why the Maya chose to end their 13-baktun calendar on December 21, 2012 an event that occurs once in every 26,000 year precessional cycle. The Galactic centre having reached it's lowest point in the sky and set to commence ascending once again.

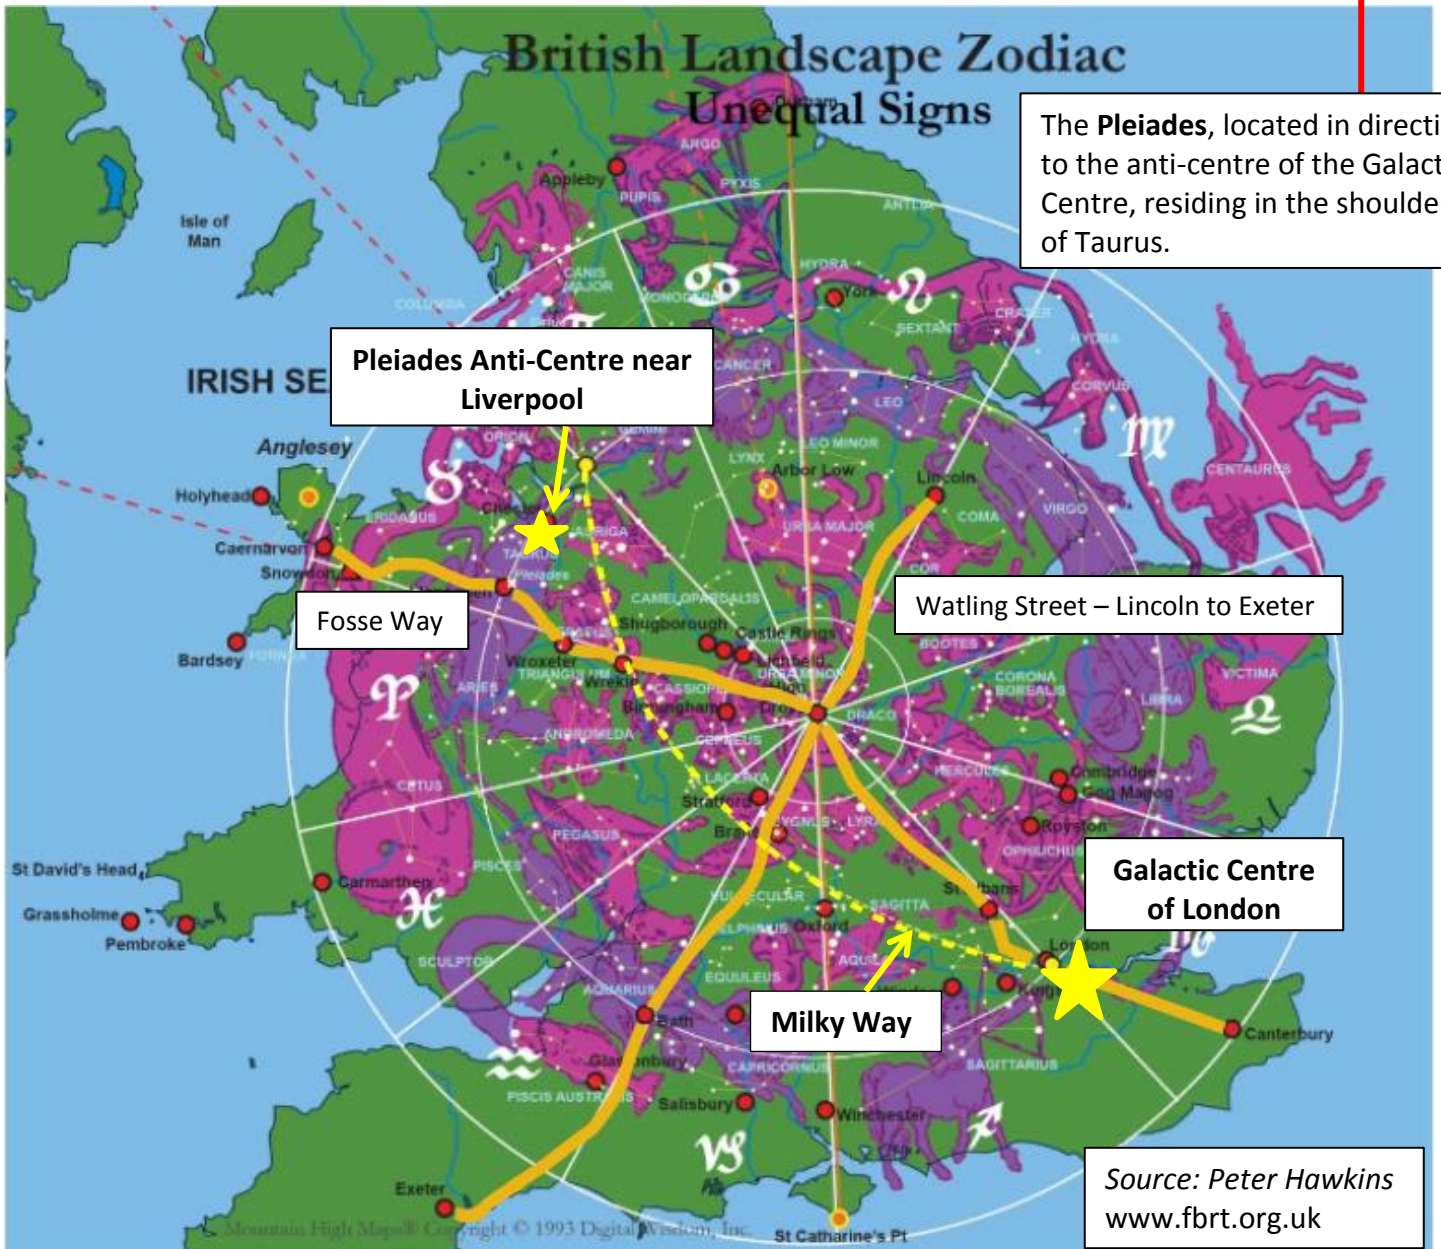

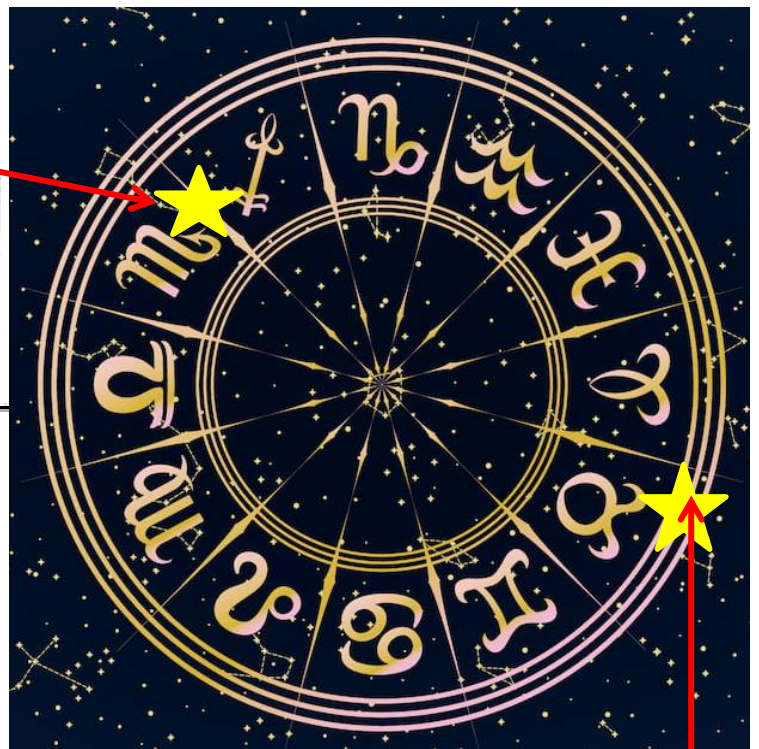

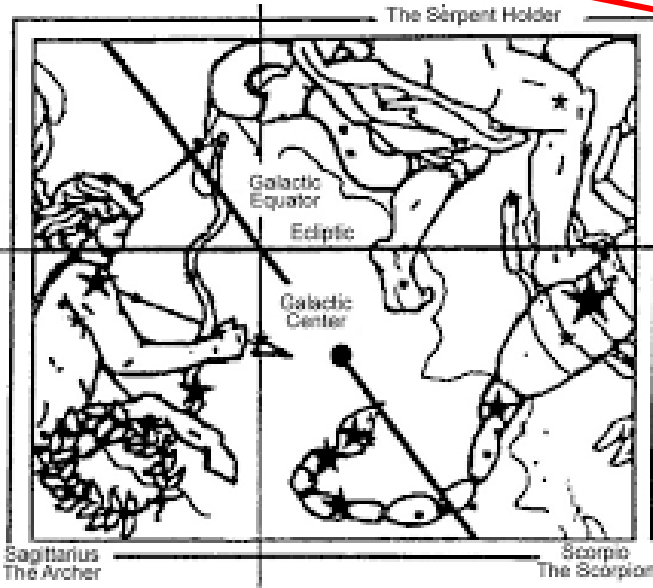

The Mayan Long Count: A system of at least five place values, consisting of: baktun (144,000 days), katun (7,200 days), tun (360 days), uinal (20 days), and kin (1 day). Thus, 9.16.4.1.1 indicates a Long Count date of 9 baktuns, 16 katuns, 4 tuns, 1 uinal, and 1 kin, meaning that a total of 1,412,661 days have elapsed since the first day of the Long Count: August 12, 3114 B.C. A period of 13 baktuns (5,125.36 years) is indicated on creation monuments as one World Age. Five of these equal a precession cycle (25,627 years). The world ages being named :- Jaguar, Wind, Rain, Water and our current age 'Movement'.

The correlation of the Mayan calendar with the Gregorian calendar has been determined by the Goodman-Martínez-Thompson correlation such that the last day of the 13-baktun cycle will be December 21, 2012 or 13.0.0.0.0 (source John Major Jenkins – Galactic Alignment)

Diagram 2: The Landscape Zodiac of Britain (Unequal Signs)

The British Landscape Zodiac centred at High Cross is an archetypal energy pattern that underlies the landscape of Britain—a pattern that appears to have been originally laid out by the Celtic people (the Britons or Brythonic race) and which the Romans and subsequent rulers and wisdom-holders seem to have recognised and used, right up to the time of the Tudors and even into the 18th century. This archetypal pattern is that of the Zodiac or Wheel of Life, divided into various geometric patterns, such as twelve equal sections or ‘signs’. The Zodiac, subdivided into twelve or ten divisions, was a pattern habitually used by the Celtic people and other races, by means of which they laid out and ‘mapped’ their local and national landscapes in a recognisable way, and at the same time ‘married’ the wisdom of the sky (heavens) with the land (earth). In this way both history and myth were joined together in a way that expressed the wisdom, and people could relate to each other and find each other according to where they lived within the organised and mythologised landscape. The City of London positioned on the cusp of Sagitarius and Scorpio – the Galactic Centre and the City of Liverpool close to the Pleiades in the shoulder of Taurus.

Year 2012 saw a Phoenix rising during the closing ceremony of the London Olympics and commencement of the Mandela Effect – believed in part due to the Large Hadron Collider of CERN altering the weight of one electron therefore destroying one universe and shifting into another parallel one. The LHC also providing president Macron of France an Anti-Matter (bomb?) factory. CERN constructed on an ancient site dedicated to Apollo and the St. Michael line connecting Mount Karmel, Israel to Skellig Michael, Ireland (see Ref: *Establishing Embassy – Lifting the Veil, Chapter 1*).

The Tower of London and Westminster Palace are candidates for representing the Galactic Centre. The Tower of London sits on the pre-historic ‘White Mount’ believed to be the burial place for the head of ‘Bran the Blessed’ and also that of Brit or Brutus, the legendary founder of Caer Troia (London) from whom Britain derives her name. Ravens the symbol of Bran (whose name means Raven) are kept in the Tower, if the Ravens leave then the tower, monarchy and kingdom shall fall. In the Victorian age Prime Minister Benjamin Disraeli christened London the ‘New Babylon’ and Liverpool is known as the second City of Empire, the second City of Babylon. Liverpool birthplace to the modern skyscraper in 1864 with Oriel Chambers featuring a steel framed glass wall construction.

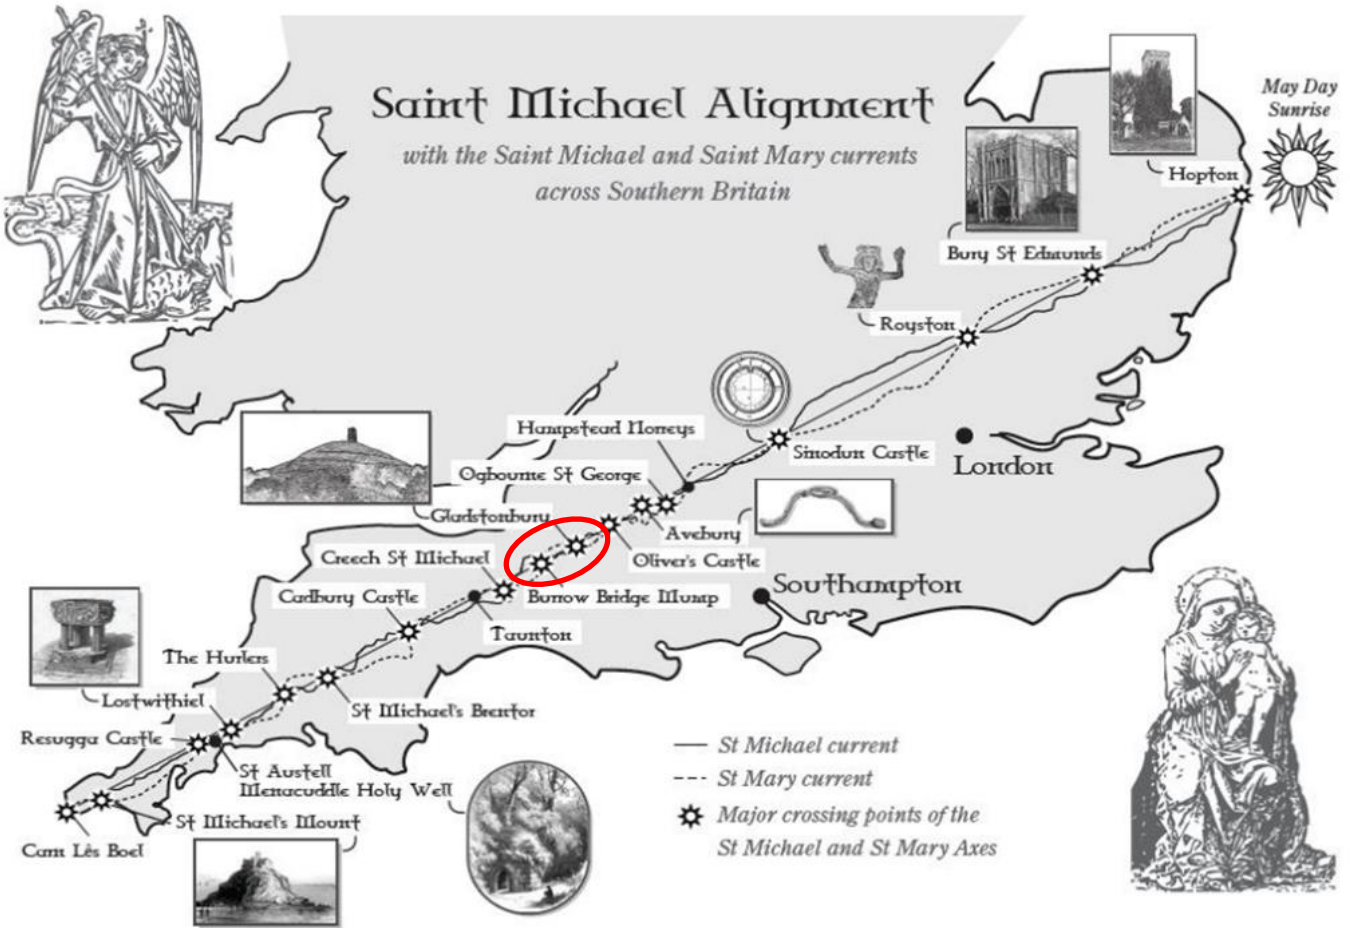

In 1878 Prince Albert dressed in full Masonic regalia and over-saw a public ceremony erecting Cleopatra's Needle on the River Thames Embankment. This signified transition from the **Age of Gabriel** (governing the Moon and ruled via secrecy) to the **Age of Michael** (governing the Sun and an age where truths are revealed – see 'Establishing Embassy – Lifting the Veil')

2. The Oldest Story Ever Told and Stargates Phoenix and Pennine

Once upon a time the defeated Titan Atlas (the Phoenix King who supports the heavens) and the Water Nymph Pleione (the Phoenix Queen) had seven daughters.

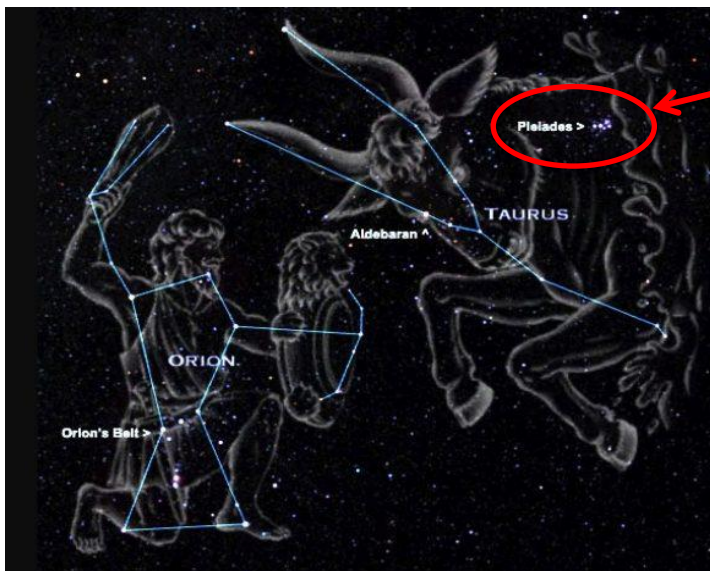

But, for when they walked the Earth, the hunter giant Orion desired each daughter for carnal pleasure.

Saddened by their father's fate and unwilling to satisfy Orion's desire the Seven Sisters chose to comfort their father. Committing suicide and calling on Zeus and his daughter Artemis they were transformed into doves and rose to decorate the heavens in the shoulder of Taurus the Bull.

Orion a mortal giant and Artemis goddess of the hunt fell in love and hunting together they continually tried to outdo each other. Until Orion made the mistake of boasting to Artemis and her mother Gaia that he could slay anything that came from the earth. Gaia took Orion's boasting as a threat as she considered all living things on earth to be her children. So she summoned a giant scorpion which Artemis and Orion fought together. Orion was killed and at the request of Artemis, the fallen hunter was placed in the sky as the constellation Orion and the Scorpion as Scorpio.

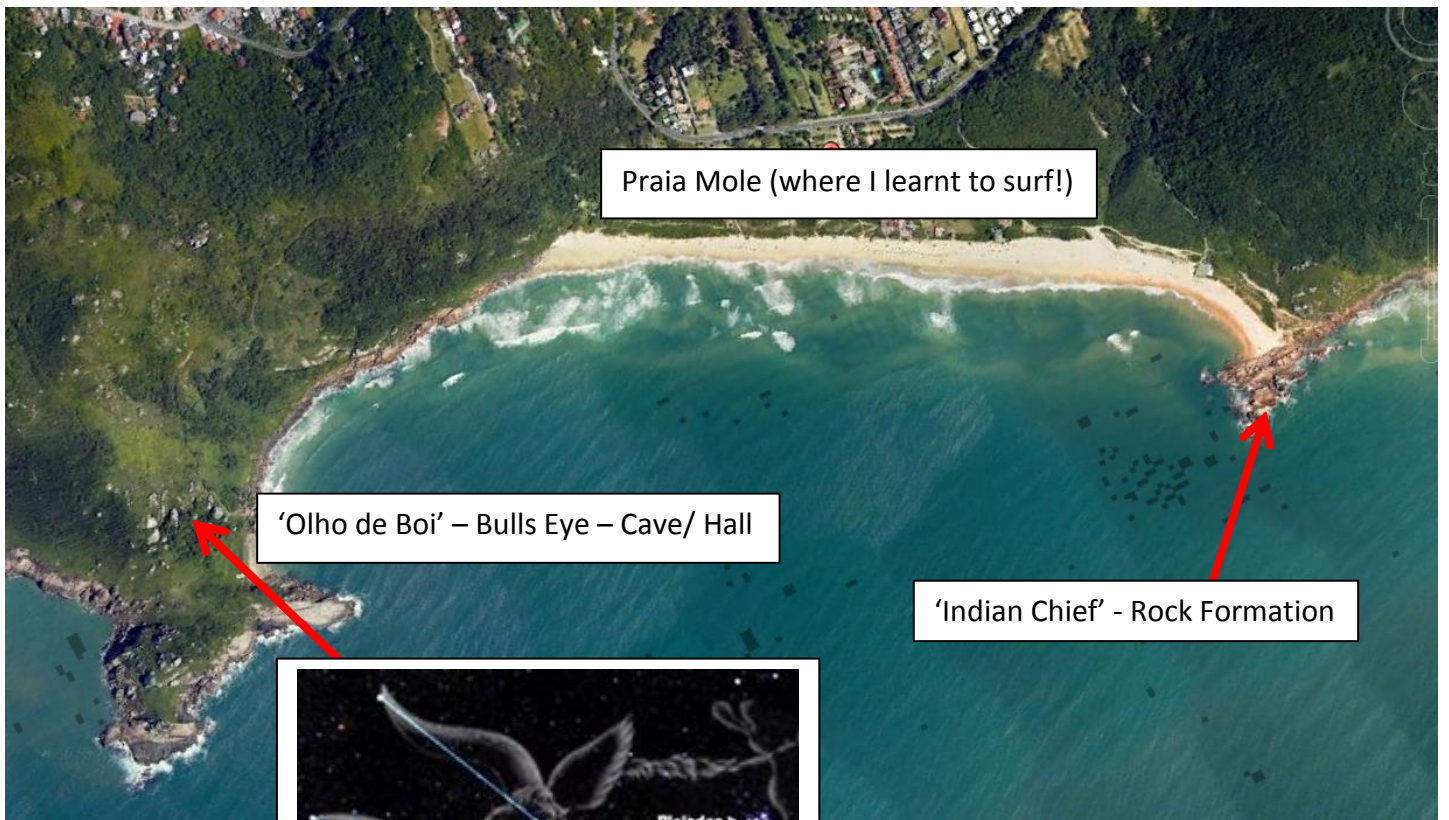

Separated by the brightest star Aldebaran in the Eye of the Bull, Orion pursues the Seven Sisters located in the bull's shoulder, across the night sky for eternity. The Seven Sisters parents Pleione and Atlas accompanying their daughters in the heavens.

‘With the unequal 12 sign British landscape zodiac centred at High Cross and the Masonic Compass placed on the cusp between the signs Leo and Virgo we find the Fosse Way lays along this axis. This axis is known as the Sphinx Line, the sphinx having the body of a lion (Leo) and the head of a woman (Virgo). The line passes through Lincoln, Leicester, High Cross, Stratford-upon-Avon, Bath and passes close to Glastonbury. While the Watling Street route is allied with the myths of Bran, the Holy Grail and sovereignty of the land, the Fosse Way is directly associated with Robin Hood and Maid Marion – dressed in Lincoln green, King Lear of Leicester;

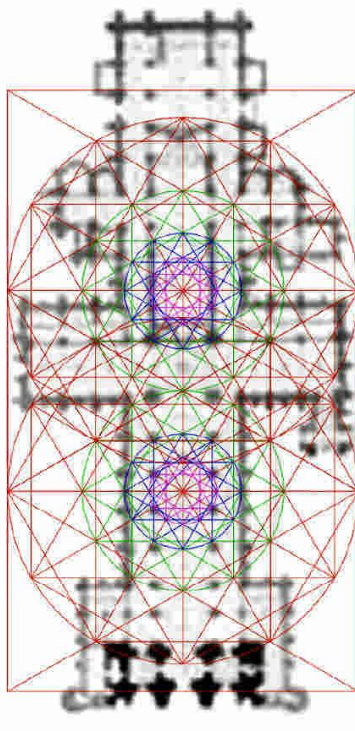

Guy of Warwick; Shakespeare of Stratford-upon-Avon; and King Bladdud, son of Lear who founded the spa town of Bath.

The greatest myth of all Britain is that of King Arthur and the Knights of the Round Table, which ‘table’ is the Zodiac. Arthur (Celtic Hu, meaning ‘Light’) is the Sun King. He travels the ecliptic in his sun chariot but his throne is equated with the centre (the Occult Pole) of the Zodiac. He is the divine guardian of the Holy Grail, the divine Grail King. The twelve knights and ladies of the Round Table are associated with the twelve signs, which are their ‘seats’; but there is also a thirteenth sign represented by the constellation of Ophiuchus, the ‘Serpent Master’. Signifying the thirteenth seat at the Round Table, wherein can sit only the heir to the throne. The heir is the Grail Knight, the one who has achieved the Holy Grail and thereby become guardian of the Grail.’: *Source Peter Dawkins – The British Landscape Zodiac.*

'Much of the hidden symbology within Lincoln Cathedral alludes to the bright and morning star Sirius and the current chapel dedicated to Mary is called the Morning chapel. According to 'The Da Vinci Code', the Grail waits underneath ancient Roslin. This may be alluding to the ROSe Window at LINcoln – spelling ROSLIN. Brown's alleged fiction assures us that She, Mary, the Grail, rests at last beneath the starry skies...given that the Rose Window is a planisphere, the Round Table given to Guinevere (correctly pronounced 'Queen-of-air'), a map or atlas of the Northern Constellations, a possible reinterpretation can read 'rests ATLAST' beneath the starry skies of the Rose Window, atlas of the Northern Heavens? Britain

A landscape zodiac (or terrestrial zodiac) is a representation of the zodiacal signs and symbolism found in the textures and morphology of rural and urban landscape which broadly mirrors the zodiac in the constellations of the ecliptic, often confirmed by local place names and legends. Thirty nine have been identified in Britain of which the Kingston Zodiac of Surrey, centred on the Tudor Court at Hampton, and Glastonbury's 'Temple of the Stars' zodiac of Somerset share much in common, they both being protected from the west by a huge hound.

The four brightest stars of the four fixed zodiac constellations are **Alderbaran** in Taurus (spring equinox and watcher of the East - Mathew); **Regulas** in Leo (summer solstice and watcher of the North - Mark); **Antares** in Scorpio (autumnal equinox and watcher of the West – Luke) and **Formalhuat** in Aquarius (winter solstice and watcher of the South - John) these four stars recognised as the ‘Royal Star Cross’. The four stars positioned in the Glastonbury ‘Temple of the Stars’ is shown below.

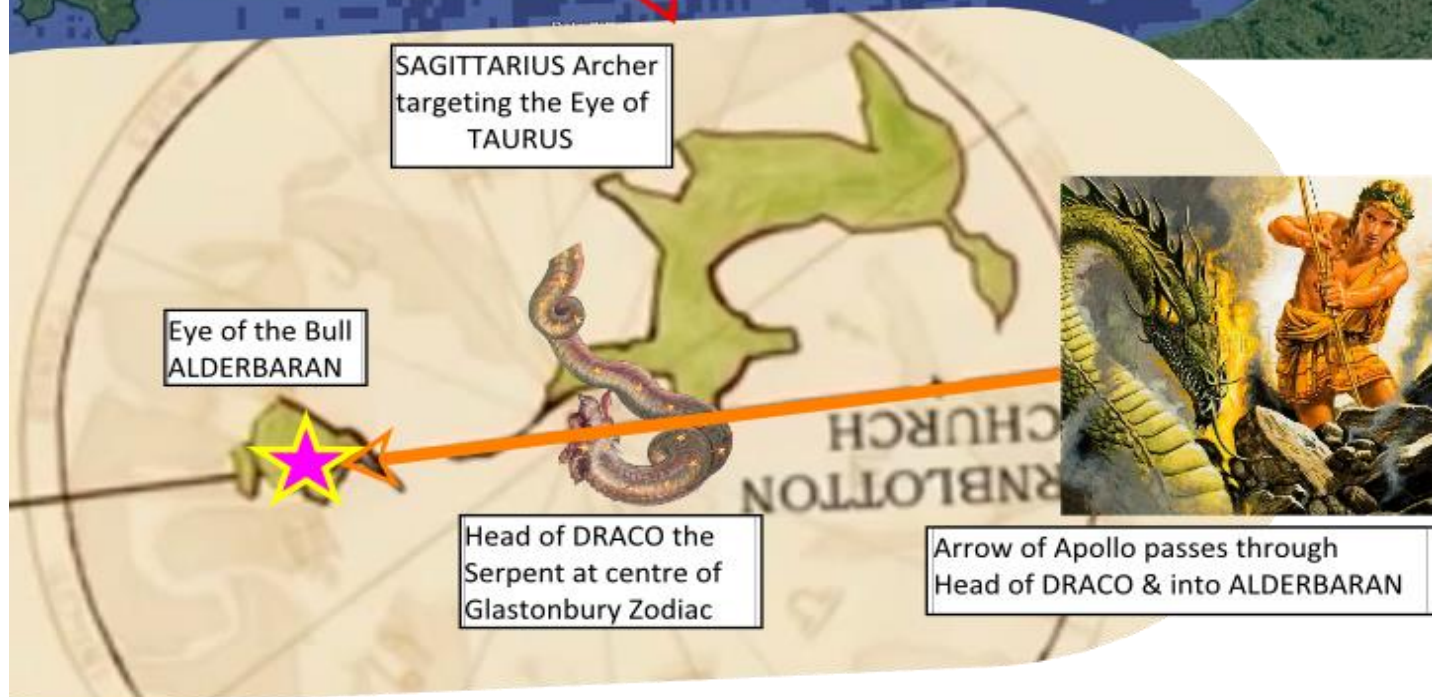

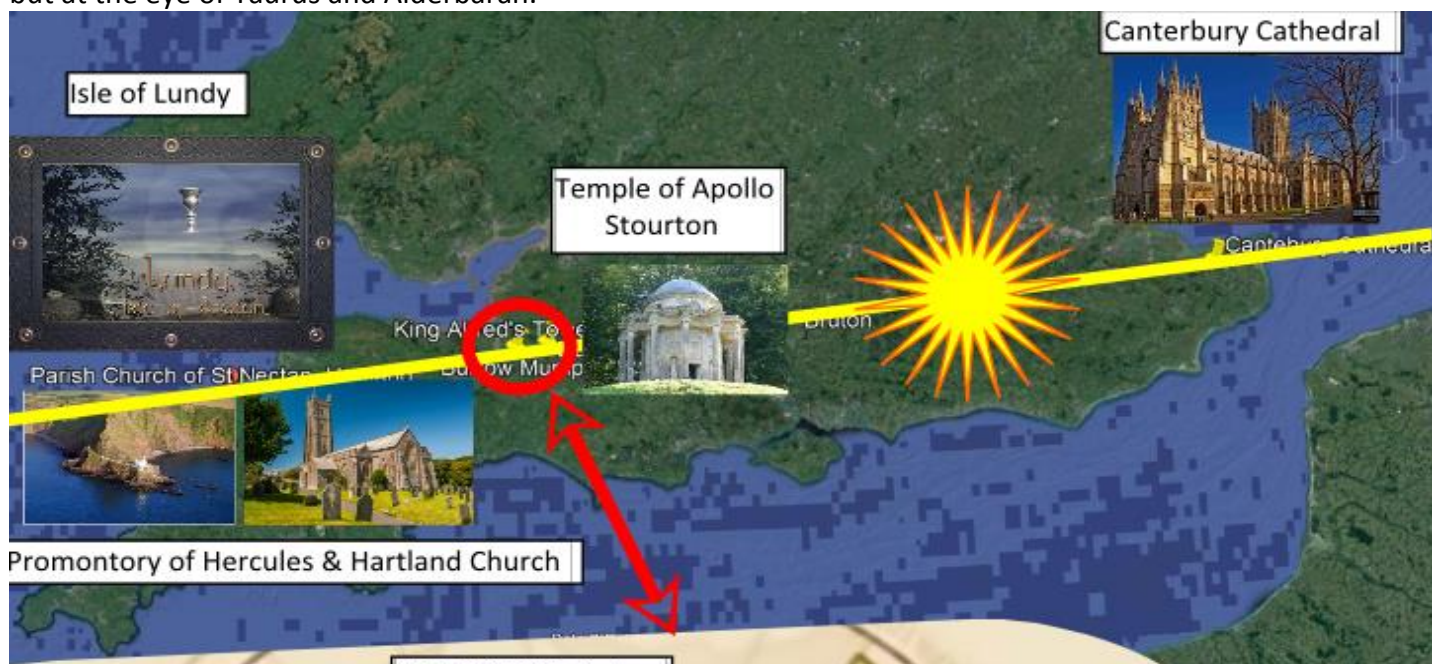

Close to the whereabouts of Antares in Scorpio is Hornblotton church containing symbolism of Holy Royal Arch Freemasonry including a mosaic floor whose centre could be representing a wellhead. In Templecombe, preceptor to the Knights Templar and five miles from Cadbury – Camelot, can be found a medieval painting on wood of Christ central to a Royal Star Cross, the diamond parallelogram crossed with four hoops.

Here are King Charles III, Saddam Hussein and his doppelganger Venezuelan President Nicolas Madura wearing Royal Star Cross medals and an example medal of the Scots Royal Order of the Thistle.

Katherine Maltwood (rediscoverer of the Glastonbury Zodiac) dates its formation to around 2700 BC the centre of the zodiac being Draco the serpent with the line of the spring equinox connecting Canterbury Cathedral in the west with the Promontory of Hercules and Hartland Church (gateway to the Avalon Isle of Lundy) along the path is a temple of Apollo at Stourton. April 14, 2013 -- When Venezuelan interim president Nicolás Maduro declared last week that deceased President Hugo Chávez appeared to him in the form of a bird, many thought he was losing it.

"I felt his spirit blessing us," said Maduro during the televised address. He even took to whistling like a bird as a form of war cry in subsequent public appearances.

'In the mystic traditions of the different religions we have a remarkable unity of spirit. Whatever religion they may profess, they are spiritual kinsmen. While the different religions in their historic forms bind us to limited groups and militate against the development of loyalty to the world community, the mystics have already stood for the fellowship of humanity in harmony with the spirit of the mystics of ages gone by'

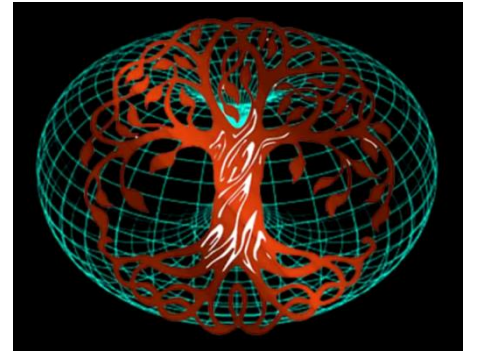

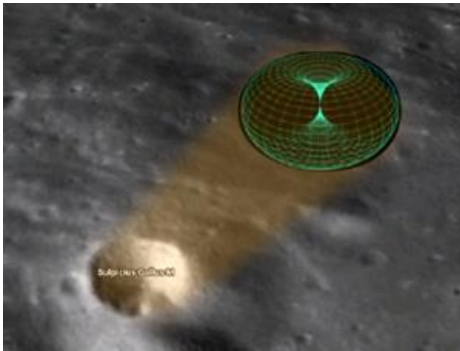

5. The Labyrinth of Woven Languages of Light

A Lachovsky Multiple Wave Oscillator provides healing energy via a counter rotating magnetic field and a Tesla coil can generate an electrical 'Tree of Life'.

On the floor of Notre Dame Cathedral is laid out a labyrinth. Symbolically walking the road to Jerusalem the penitent would say prayers at particular points.

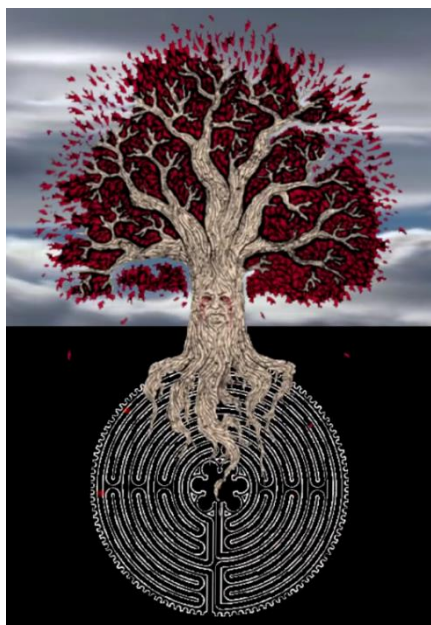

Our Crater Realm is home to a natural organic toroidal energy field that is symbolised with the Grail Cup and Tree of Life.

The Isle of Crete being home to the legend of the Minotaur imprisoned in the Labyrinth.

The Greek god Theseus enters the Labyrinth and assisted by the thread of Ariadne he slays the Minotaur.

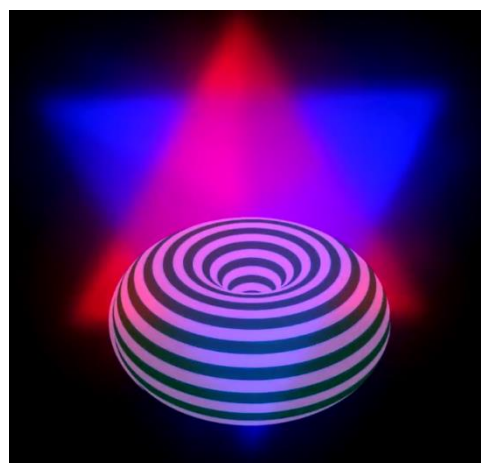

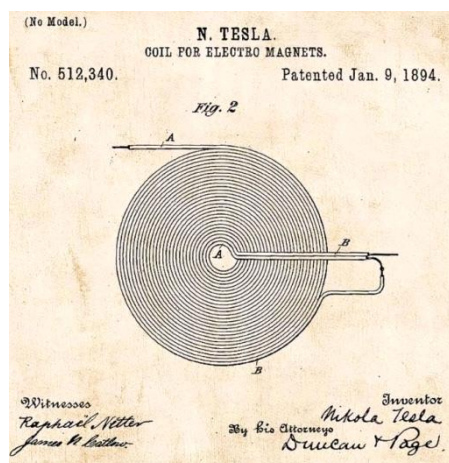

The Labyrinth being the energy pattern created by the magnetic tree of life.

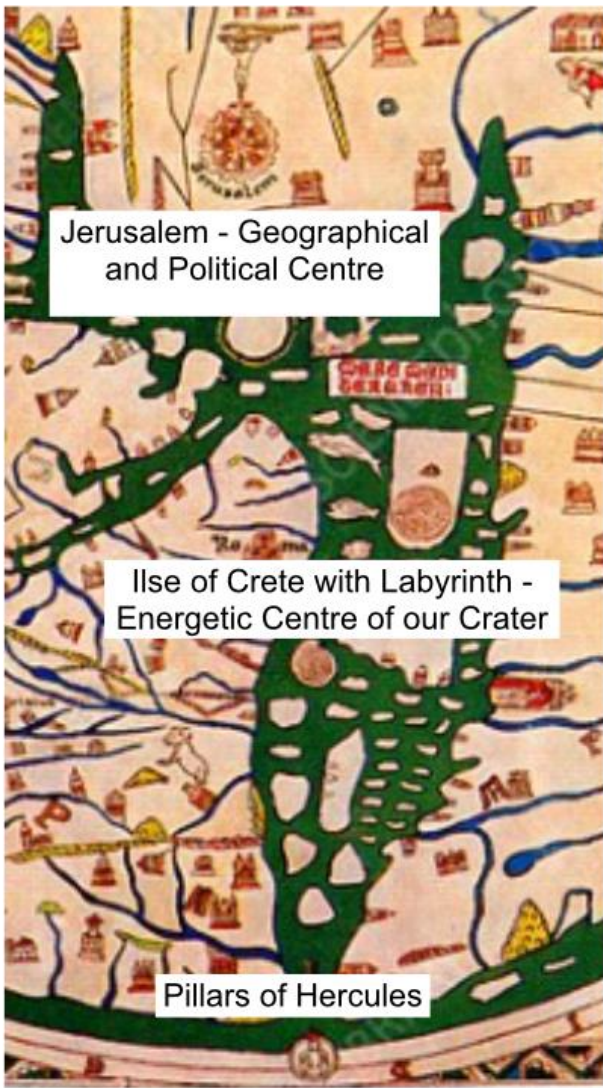

Minotaur
Taurus = bull
Minos - Crete

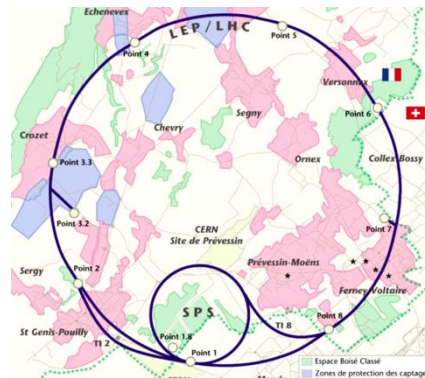

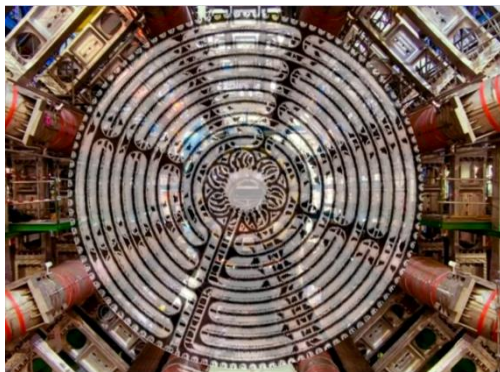

'Mino' as in the Minoan civilisation and Taurus the bull meaning the Toroidal energy field.

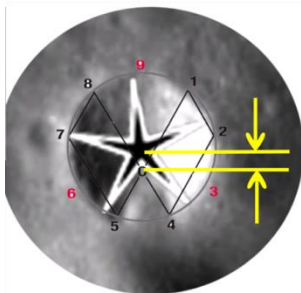

At the heart of the Labyrinth are six circles that form the Star of David and passing an electric current through a wire (thread) in a Tesla Coil energises it. The result of an energised Labyrinth pattern is a counter rotating tetrahedron 'a Merkabah' that is shredding the natural toroidal energy field of our crater to pieces.

On the Hereford Cathedral map of 1250 Crete is drawn between the Pillars of Hercules and Jerusalem, as is the Templar cross positioned at the energetic centre of Disneyland.

Today a new counter rotating magnetic field is in operation at CERN.

The Mandela Effect providing a gap in the Volkswagen logo and changing an 'e' for electric for an 'o' for organic as '-wagon' became '-wagen'. Highlighting the ongoing destruction of the natural toroidal energy field of our crater.

The rotating tetrahedron (Merkabah) above the torus destroying the 'Tree of Life' is represented by the descending cross above the Grail Cup and a cross above the Sacred Heart – the ongoing destruction of the heart of humanity.

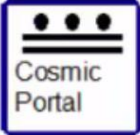

Origin of the word Is-Ra-El, the syllable 'El' from the 12 angels each one positioned at a turn in the Labyrinth that brings the voyager closer to god – Archangel Michael being the closest.

<https://www.crystalinks.com/hebrewletterslight.html>

According to [Stan Tenen](#) of the Meru Foundation, these gestures and the position of "The Light in the Meeting Tent" will yield these specific letters.

By fusing mathematics and Jewish mysticism, Tenen has demonstrated that the first verse of Genesis in the Hebrew Bible generates a mathematical Torus. When a particular portion is removed from this 'doughnut', its shape mirrors the human hand.

Tenen claims the [Hebrew alphabet](#) is based on the human hand, because it represents the function of differentiating self from other, inside from outside.

"The alphabet links the inner world of the mind with the outer world of experience, just as our hands do," he says. "And," he continues, "The first letter of the book of Genesis -Bet- means 'house', something that distinguishes inside from outside; this is the most basic distinction you can make at any level of consciousness.

Hathor (Ancient Egyptian: ḥwt-ḥr, lit. 'House of Horus', Ancient Greek: Ἀθήρ Hathōr, Coptic: ⲭⲏⲏⲏⲏ, Meroitic: ⲭⲏⲏⲏ Atri/Atari) was a major goddess in ancient Egyptian religion who played a wide variety of roles. As a sky deity, she was the mother or consort of the sky god Horus and the sun god Ra, both of whom were connected with kingship, and thus she was the symbolic mother of their earthly representatives, the pharaohs. She was one of several goddesses who acted as the Eye of Ra, Ra's feminine counterpart, and in this form she had a vengeful aspect that protected him from his enemies. Her beneficent side represented music, dance, joy, love, sexuality, and maternal care, and she acted as the consort of several male deities and the mother of their sons. These two aspects of the goddess exemplified the Egyptian conception of femininity. Hathor crossed boundaries between worlds, helping deceased souls in the transition to the afterlife.

Elizabeth Taylor as Cleopatra entering Rome

Hathor was often depicted as a cow, symbolizing her maternal and celestial aspect, although her most common form was a woman wearing a headdress of cow horns and a sun disk. She could also be represented as a lioness, a cobra, or a sycamore tree.

Detail of the colossal carving of Cleopatra VII Philopator (51-30 BC) and her son Ptolemy XV Caesarion (44-30 BC) before the gods, on the south exterior wall of Temple of Dendera. The large goddess on the right, the first of a procession of deities not included in the photograph, is Hator. Her name means 'house of Horus' and, as the living king was identified with Horus, Hator was considered the divine mother of the pharaoh, who had 'son of Hator' as one of his royal titles. It is then certainly not a case that Cleopatra decided to have this colossal scene carved onto a wall of the temple of Hator. Caesarion was allegedly the child Cleopatra had with Julius Caesar (100-44 BC) but, after the violent death of the Roman consul and the suicide of Mark Anthony (83-30 BC), with whom the queen was also romantically linked and whose self-inflicted death prompted her to follow suit, the young pharaoh did not enjoy the protection of the gods as died at the orders of Octavian, future Augustus (63 BC-AD 14). This represented the end of the Ptolemaic dynasty and the beginning, with Octavian's self-proclamation as pharaoh on 30 August 30 BC, of the last historic phase of ancient Egypt, the Roman Period (30 BC-AD 395).

Space Invaders was developed by Japanese designer Tomohiro Nishikado, who spent a year designing the game and developing the necessary hardware to produce it. The game's inspiration is reported to have come from varying sources, including an adaptation of the electro-mechanical arcade game Space Monsters released by Taito in 1972, and **a dream about Japanese school children who are waiting for Santa Claus when they are attacked by invading aliens.**

Nishikado drew inspiration for the aliens from a novel by H. G. Wells, The War of the Worlds, and created initial bitmap images after the **octopus-like aliens**. Other alien designs were modelled after **squids and crabs**.

DARPA Wants to Build Conscious Robots Using Insect Brains

The Pentagon thinks bugs could hold the secrets to conscious experience.

INSECT BRAINS

The Pentagon's emerging technologies unit put out a call last week for proposals that use insect brains to control robots — because they could be used to create efficient new models for artificial intelligence, but also because they could be used to explore the meaning of consciousness.

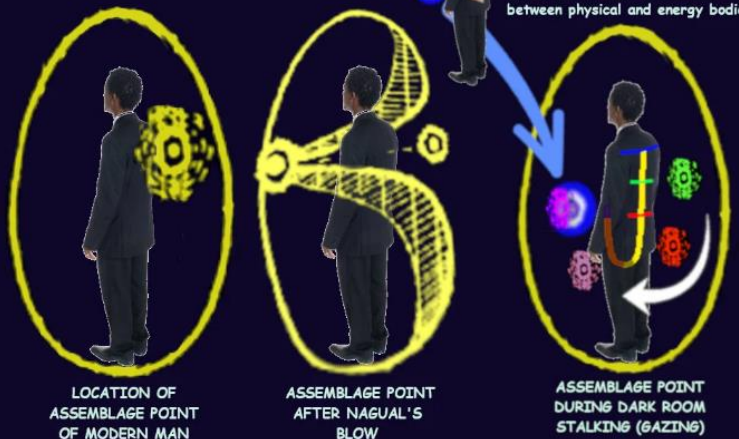

THE TWO ASSEMBLAGE POINTS

OLMEC SORCERY IS THE ONLY SYSTEM WHICH IS AWARE OF THE ASSEMBLAGE POINT, AND THE ONLY SYSTEM WHICH CONSCIOUSLY MANIPULATES IT. IN THE DARK ROOM WE MOVE IT ALONG THE OUTSIDE OF OUR SHELL, TO REPLACE THE NEED FOR A DOUBLE BEING TO MOVE IT WITH THE NAGUAL'S BLOW. MEANWHILE WE MAKE A DENT IN THE ENERGY BODY'S ASSEMBLAGE POINT, WHICH IS ON THE FRONT. THE RESULT IS THAT BOTH ASSEMBLAGE POINTS ARE IN THE FRONT, AND VERY CLOSE TOGETHER.

"She said that the point where the second attention assembles itself was situated right where Juan Tuma had described it the first time we met- approximately one and one-half feet in front of the midpoint between the stomach and the belly button and four inches to the right."

Dark Room moves the assemblage point down and back up the front, where you can wiggle your fingers to dent the second attention assemblage point and bring both together. This allows switching between physical and energy bodies.

Re-booting storyline from Glen A. Larson’s ‘Battlestar Galactica’ of the Insectoid Ovions allied with the A.I. Cylons, feeding on the human race. Plus a return of legendary shapeshifter’s, I believe the Mayan ‘Bible’ the Popul Vuh contains reference to the Celtic Tuatha De Danann.

Shape of the Luminous Shell

The luminous shell of Humans has a shape which has changed slightly over time. We don't know why, but a sorcerer can change his own shape by moving the assemblage point above the top of the J curve, into the human unknown regions. The old seers preferred to do that, resulting in a smoking pipe shape. The new seers deviate from the old seers on just this one point. Up until the end they copy everything the old seers did, because it's the only viable intent we have. To hook ourselves to the old seers view of the world so that intent can pull us in the right direction. But then at the last minute, the new seers stretch their shape into an infinite line and explore the non-human unknown.

Ovions are insectoid creatures who work the **tylium** mines of the planet Carillon.

^ MARVEL COMICS

The **Ovions**, also referred to as the **Lords of Ovion** by the **Cylons**, are occupants of Carillon. A communal order from birth, all Ovions work and share, believing that such a system is peaceful and ordered: there is no competition, no jealousy. Eschewing happiness as "the goal of an immature order," the Ovion is content with such a communal system, as it has been so for millennia. As such, they align with the **Cylons** as a member of the **Alliance**, unbeknownst to the **Colonials**.

Ovions surround Boxey upon the darkened surface of Carillon (Deathtrap).

Ovion young feast on humans in the subterranean catacombs of Carillon (Deathtrap).

The Ovions set up a lure for their human food supply in the form of a resort and chancery on Carillon, attracting humans from across the star system; they and their young feed on the unsuspecting humans, as humans would feast on cows. Captain **Apollo** and Lieutenant **Starbuck** uncover this, leading to the mass exodus from and destruction of Carillon (Deathtrap!).

^ DYNAMITE ENTERTAINMENT COMICS

The Ovions originate from a place other than Carillon, and thus are something of nomads.

Baltar and their queen **Lotay** agree for the Ovions to work the rich **tylium** deposits of Carillon, for Baltar did not trust his own people to safeguard the secret of Carillon's wealth from either the **Cylons** or the **Colonials**.

For the Ovions, Baltar had them build a **gambler's paradise** on the planet, in which the den of sin allows none of its victims to lose—except their lives as a food source for the Ovions, for they were on the verge of collapse as a species (*Battlestar Galactica Annual 2014*).

Maya Cosmogogenesis

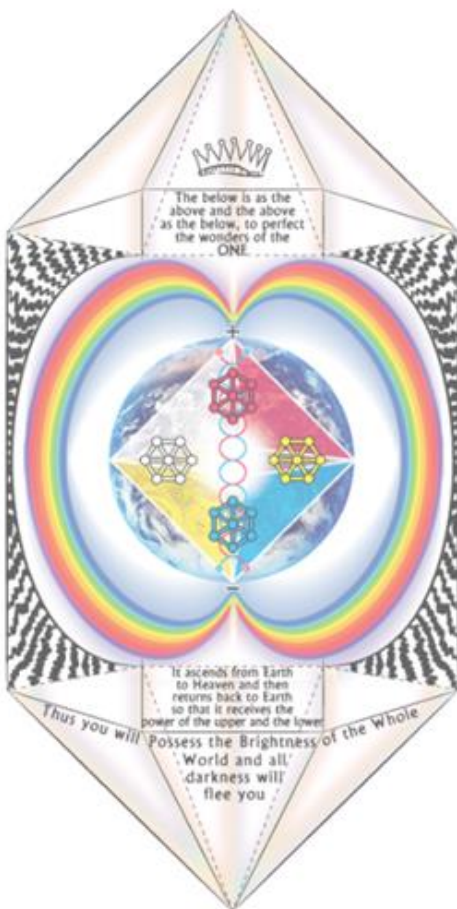

In *Maya Cosmogogenesis 2012* **John Major Jenkins** argues that the Mayan Long Count End Date of December 21st, 2012 A.D. marks a rare astronomical alignment of our solar system to the Galactic Center, and its powerful energetic emanations. This alignment, determined by precession, happens when the winter solstice sun conjuncts the crossing point of Milky Way and ecliptic in Sagittarius. This takes place once every 26,000 years, and for the ancient Maya this event and it's backdrop was entrenched in cosmological and mythical meaning as well, which we'll explore. Jenkins new book is *Maya Cosmogogenesis 2012*. The Maya prophesied this era as one of global transformation and **consciousness evolution** as the Maya Great Cycle of Creation, a period of 5,125 years, comes to its conclusion.

Synchronicity of the Harmonic Convergence 33

Evidently, the **33rd Anniversary** of the Harmonic Convergence relates to the Mystical **Number 33**.

*"In classic numerology, the enigmatic **Number 33** is referred to as the **"Master Teacher"** and it is associated with the **Spiritual Evolution of humankind**. The other two Master numbers are **11**, which is related to **"Vision,"** and **22** which refers to **"Vision with Action"**. In numerology, **these 3 Master numbers** are the only multi-digits numbers that don't get reduced or simplified. They create what is known as the **Triangle of Enlightenment**, where 11 and 22 sit at the base of the triangle, and 33 sits at the top (**11+22 = 33**)."*

*"For the **Dreamspell Initiates**, the **Revelation of Number 33** constitutes a higher dimensional teaching. The **Divine Synchronisation between the incarnations of the Dreamspell progenitors** predestined them to embody the **Master Numbers 11 22 and 33** in the Dreamspell Count. In this way, **Valum Votan and Bolon Ik (11+22)** represent the **Archetypal Mother and Father** of the multidimensional realm of Dreamspell, and also the **Master Teachers (33)** behind the **Spiritual Evolution of humankind through the 13:20 frequency of Natural Time.**"*

An earlier San Francisco of 1870 a city of 1 million plus inhabitants. After the 'earthquake and fire' of 1906 close examination of photographic records is intriguing as the city appears to have been annihilated, disintegrated buildings leaving no rubble but electrical telegraph poles are mysteriously left standing.

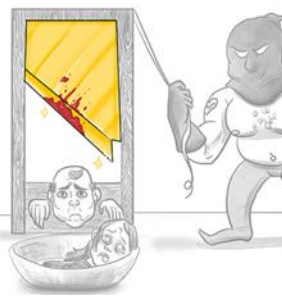

A similar scene in Paradise California after a supposed wildfire destroyed the town in 2018 but trees next to disintegrated buildings are unharmed and Death Valley Nevada - the craters resemble that of aerial bombardment.

The Mandela Effect swapping 'Sex In The City' for 'Sex **And** The City' – implying that the city and having sex are two separate things in that sex no longer happens in the city, and Fruit of the Loom lost it's cornucopia:-

'In Sumeria Sexual rituals have existed since the dawn of mankind and have been present in all of mankind's great cultures. The earliest references to them, and also the most famous, is the Hieros Gamos, or "Holy Wedding". This ritual was performed in Sumer 5,500 years ago. In it, the high priestess would assume the role of

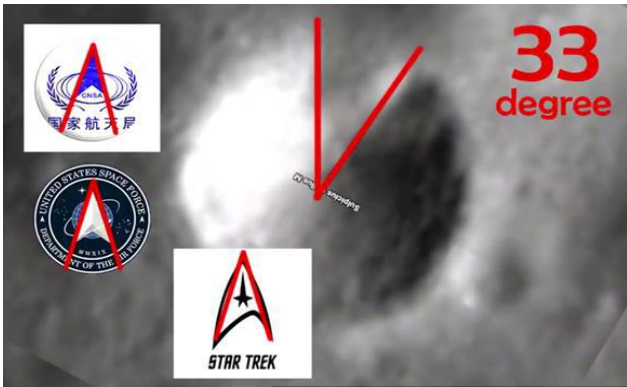

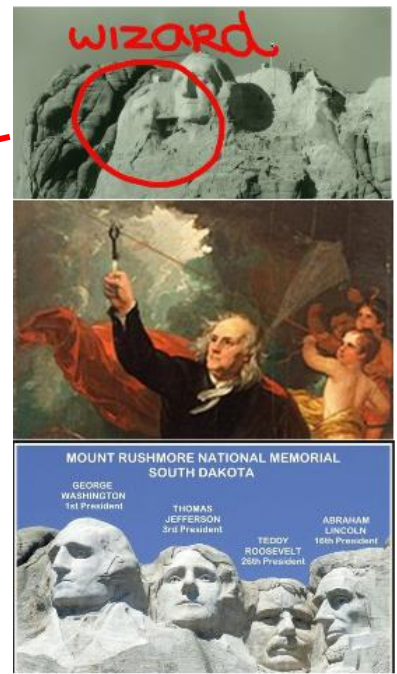

the Avatar of the great goddess Inanna and have sex with the king or emperor, who would assume the role of the god Dumuzi, to show his acceptance by the goddess as the righteous ruler of that region. This was done in front of the court, because in those days there were no taboos for having sex in public if it was in a religious ceremony. The symbol of this union was a horn, also called a "cornucopia" (a clear reference to the Great Goddess's vagina in its opening and the Great God's phallus in its horn), from which fruits, vegetables and all the abundance of the fields sprouted. It was an obvious association between the sexual rituals of fertility and the crops that originated from the crops energized by such rituals. The symbol of the cornucopia was eternalized in Greek Mythology, through the Dionysian rites with their strong presence on Olympus, and remains until today as a symbol of abundance.'

9. The Awakening of the Sacred Fire within the Ark of the Covenant

Key passages that influenced original studios project in Lagoa da Conceicao 2005

"The Secondary Wound is that of the manipulation of the feminine flame of creative power utilised in service to egoic self, rather than in service to the divine as held through the Solar Plexus – resulting in disempowerment and poverty or reality of lack within the lives of many at this time."

'The Ninth Wound or cosmic memory that all beings upon the earth are assisting within the transformation of at this time relates then into the Soul Star Chakra and the perceptual sources of separation perpetuated between humanity and the Family of Light, which occurred at the time of the Galactic Wars'

'The Tenth Wound or cosmic memory that all beings upon the earth are assisting within the transformation of at this time relates then into the Earth Star Chakra and the perceptual source of separation perpetuated between humanity and their ancestry – as held through the kingdoms of the Middle Earth'

'The Twelfth Wound or cosmic memory that all beings upon the Earth are assisting within the transformation of relates then into the Hara and the perceptual separation perpetuated between the heart of humanity and the truth of their sacred purpose as custodians and guardians of Gaia and all sentient life-forms upon her at this time'.

2005
The Awakening of the Sacred Fire Within the Ark of the Covenant. ~ METATRON

Beloved we offer you this journey as an expansion of the flame of the eternal that burns ever present within the innermost sanctums of your heart and that illumines all the worlds with the love of your presence...as it is this journey they made manifest through the collective field of unconditional held through the dreaming of The 144,000 in order to bring forth the full radiance of the harmonic of the DIVINE presence into union with matter...that has not been seen upon the earth since the time of the Christ and before. Then within the time of the early epoch of ATLANTIS.

Search your soul with this then beloved one's, if you are to be one of the one's who will journey with us within reclamation and manifestation of the sacred purpose of your soul within the materialisation of the divine reality of your being onto the earth.

For this journey becomes for each of you that shall share within such...a manifestation of the full spectrum of your mastery - powerfully into realised actualisation, as the cellular frequency of your form is raised to vibrate and oscillate with the frequency of God-FORCE.

All upon the Earth at this time share within this journey of a return into the vast expanse of limitlessness, as we have been gifted at this time with the heart's flame of the presence of the Beloved to assist within the acceleration of this pathway...as verily it is promised to all that undertake this journey with the heart of God Presence. that awakening shall occur for each of you as you meditate within the innermost sanctums of your being.

Each of you actually separated yourselves from the truth of your mastery with the experience of the fall into matter and the further densification of spirit through the light feelers into form. As it is the full spectrum of this mastery that is held for you through many portals upon the earth and within the Starry heavens, until such a time as you may have reached within your journey of evolutionary progression a point in time where you are ready within your experience to reclaim and own that mastery for your own self...and beloved that time is now!

As it is at this time that these portals of divine connectivity to Source are opening themselves once again ~ creating a multi-dimensional bridge of light that spans all twelve dimensional wave spectra

The Third Wound all beings are in the process of healing is held then through the third eye (pineal gland) and relates to the original wounding of the brain as manifest through its right and left hemispheres... in order for the light of GOD CONSCIOUSNESS to flow uninhibited through all parts of your being it is necessary for both hemispheres to be balanced through all twelve dimensions of the mind, and so it is as this wound is lifted from the collective consciousness of all beings upon the earth... within which the potential resides for the Light of GOD CONSCIOUSNESS to fully illuminate all parts of the unknown realms of creation.

The Fourth Wound that all beings are within the process of transjuring resides then within the throat chakra and relates especially to the essence of divine resonance and vibrational harmonics, which equate to the truth of your being. As this wound is lifted, it is the unique soul (as frequency of the heart) of all creation, which is the sound of love itself - that will once again be heard by all beings thereby and cause the remembrance of unified diversity to arise throughout creation. **EDIT**

The Fifth Wound that all beings are within the process of healing relates then into the thymus gland and the original forgetting of love, which has created the perception of separation from the heart of the Goddess within the life of all.

The Sixth Wound that all beings are within the process of healing relates then into the root chakra and the perception of separation from the truth of the physical body, perpetuated through the experience of trauma, torture and physical sacrifice within earth's history.

The Seventh Wound that all beings are within the process of healing links then into the heart chakra and the perception of the split held between the higher and lower chakras of humanities being.

The Eighth Wound or cosmic memory that all beings upon the earth are assisting within the transmutation of at this time relates then into the Crown-Chakra and the veil of illusion placed between the multi-dimensional bodies of light and the four-body system of the mental, emotional, physical and spiritual matrix of form.

This wound came into being upon the earth with the sense of persecution perpetuated against those who held multi-dimensional connection to the truth of their soul gifts as manifest through such abilities as clairvoyance, clairvoyance and divine manifestation - causing a gradual closure within humanities mass consciousness to the truth of their multi-dimensionality.

The Ninth Wound or cosmic memory that all beings upon the earth are assisting within the transmutation of at this time relates then into the Soul star chakra and the perceptual source of separation perpetuated between humanity and the family of LIGHT, which occurred at the time of the GALACTIC WARS - that destroyed ATLANTIDA.

The Tenth Wound or cosmic memory that all beings upon the earth are assisting within the transmutation of at this time relates then into the Star Chakra and the perceptual source of separation perpetuated between humanity and their ancestry - as held through the Kingdoms of the

MIDDLE-EARTH (Portals of which shall open for warning **GOVERNMENT DAY**)

that create the holographic weave of your reality. For twelve days prior to and twelve days after the Autumn Equinox - 22nd September 2005... there 'was' a unique alignment within the heavens between the twelve great star worlds that collectively manifest and create the truth of the human hologram, creating a bridge of light... as a window of opportunity for the heart of humanity to be lifted to a new level of experience through the influx of the full radiance of the beloved into material form. During this twenty four day period many divine dispensations of the Light shall be offered and these will optimise themselves upon the day of the equinox within the process of a descent of the heavenly fire directly through the Ark of the Covenant (Key Stone of the Great Pyramid) and into GAIN'S Heart... representing the descent of the Holy Spirit Shekinah into full earth embodiment... as it 'was', this day that the earth shall pierce through the final harmonic of the fourth dimensional paradigm and blowly make her entry into the 5th dimension... culminating upon the Winter Solstice of 2007 and then deepening within your experience as you enter into and through the **Galactic Super Star Date** of the 21st December 2012. **EDIT**

The masters (Seven Archangels - Ardeia) have shared that there will be a total of Seven Waves of Divine Assistance (edit) corresponding to the opening of Seven Seals within the heart of the Great Pyramid and within the heart of Humanity. These seven Seals correspond directly to the mass karmic cycle of the Seven Generations of Seven Tribes descendant from the Twelve Great Star Worlds and equate thereby directly to the Twelve Primary Karmic Wounds that all beings upon the earth are clearing from their being at this time - in order to co-create the materialisation of the heavenly realms into manifest form.

TWELVE WOUNDS OF HUMANITY.

The Primary wound all beings upon the earth are healing through their experience is then that of the perceptual displacement between the elemental factors of the flow of love and light as held through the masculine and feminine elements of their being birthed through the sacred chakra.

The Secondary wound is that of the manipulation of the feminine flame of creative power utilised in service to the egoic self, rather than in service to the divine as held through the solar plexus - resulting in disempowerment and poverty or reality of lack within the lives of many at this time. Curing found via Rastafarianism, Buddha > Jedi

The eleventh wound or cosmic memory that all beings upon the earth are assisting within the transformation of relates then into the earth through the chakra (between the knees) and the perceptual imbalance between the flow of love, light and power within the experience of all beings of this time.

The Twelfth wound or cosmic memory that all beings upon the Earth are assisting within the transformation of relates then into the Hara and the perceptual separation perpetuated between the heart of humanity and the Truth of their sacred purpose as custodians and guardians of GAIA and all sentient life - forms upon her at this time.

Seven waves of divine assistance poured forth from the Cosmic Core Heart Star and through the bridge of light made manifest through the alignment of the Twelve Star Worlds through a Cosmic Cross of Fire that formed within the heavens upon the Eve of the Equinox. Blessings of the Mother Heart, heralded by Holy Spirit of the dove ~ Shekinah ~ Cosmic Queen of all the Angels ~ Angels being that over - souls the kingdom of humanity, assisting evolution of their being into their angelic nature as love. Each of us has angelic qualities - a golden pathway of liquid light stemming from our hearts, representing progression into divinity once again with the presence of the beloved.

1) Lift the veil of forgetfulness, so humanity as a whole can remember and recognize its cosmic origins as you exist as a vast multi-dimensional being of light within limitless and multidimensional forms that live within the weave and structure of the sea of living light throughout the realms of the Starry Cosmos. Angelic spheres and crystalline Kingdoms of GAIA's body.

2) Radiance of self-expression - actualize the inner voice - sing - become the observer and be observed as one - surrender into the self.

3) Emergence of the Holy Spirit... flame of the eternal presence that lives within the heart - called forth to magnify and radiate itself through all dimensions of one's being - core memory of the origin of initial perceptual separation shall be lifted through the opening of the doorways of multi-dimensionality that exist within your being and connect directly to the heart of Mother - Father.

4) Empowerment of Sacred Purpose - enter into a space of BE-ING, rather than of DO-ING - recognize underlying perfection of the NOW.

5) Unified focus of Archangel - METATRON - Shekinah - Seven Archangels - Archais (includes Michael Jackson) representing the manifestation of a bridge of light through which the group soul of humanity may enter through the heart of the angelic realm and commune with the collective consciousness. This group soul is a vast multi-dimensional being of light representing the heart of humanities being - creating experience of unity between all human hearts. Separated from humanity with the closing of the Star Heart of LEMURIA. During the time of Lemuria upon the earth all beings experienced and grew - a process of merger they reemerged on the beloved within 100 with the graduating of the group heart this diversified into life's singular experience - this healing brings group consciousness of the ONE back into the life stream of humanity.

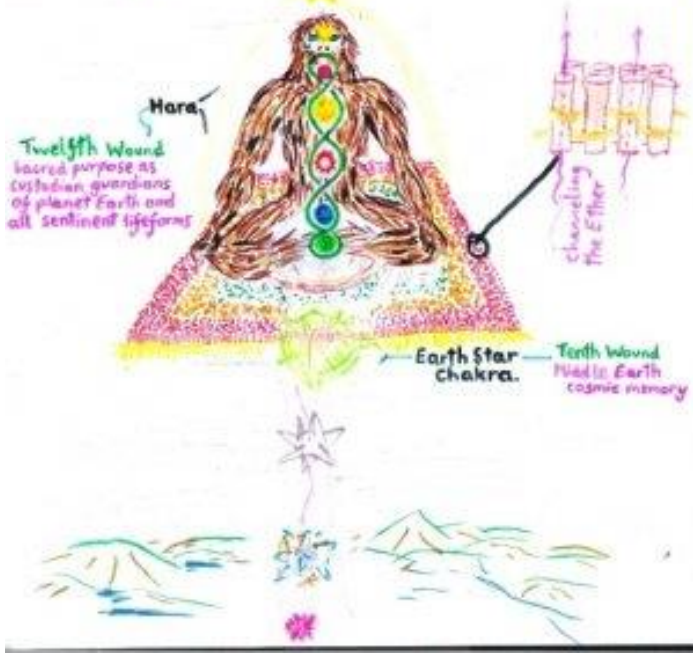

6) Divine Love wave of karmic change, through the heart of all beings united, heralded by Shekinah, Archangel Zadkiel and Holy Ancthyist... through this wave it is grace that is offered for the ending of the current karmic cycle of experience within humanities being - And prepare for return of the GALACTIC WARS.

7) Cosmic clock of radius 26,000 light years - Metatron = Maion Calendar

Transformation of the Earth Through Humanities Being

Blessed be your Soul - This is Metatron.

We live in times of powerful change - what is being attempted upon the Earth at this time has never been explored or attempted within any other sector of creation before - you are the pathfinders unfolding the DIVINE PLAN.

As it is Christ Saranda stepping forward into you now within the Golden Light of the Source of the Central Sun ~ Alcyone - bringing into you sacred elixirs of light, which assist the flow of divinities being to become manifest within each cell, molecule, thought, word and action of your experience...

Blessed Ones recognize you that the pathway of ascension upon the Earth has been walked with Christ for the last cycle of experience within the Age of Pisces as held through the focus of non-conditional love, mercy and compassion ~ transforming humanities being. But now we are on the brink of entering a new paradigm (the 5th dimension) heralded by crossing the Galactic Equator) The pathway of ascension becoming TRANSFORMATION OF THE EARTH through HUMANITIES BEING whereby physical alchemy of connection to the Earth becomes far more apparent.

Within Divine Plan the cellular structure through the DNA coil comes into evolutionary focus by connection to the Earth and her unique medicine. This is linked to the opening of TWELVE MULTI-DIMENSIONAL DOORWAYS existing beneath the feet of the human form ~ these doorways/channels are crystalline transformers of energy and consciousness that link the human body to all twelve dimensions of the Earth anchoring the God Stream (Alcyone) through humanity into Gaia's being-curing the planet.
